It has been observed with grave concern that contract of Medical Gases has been awarded to "Life Support". In spite of seventy five (75) days and repeated warnings, telephonic calls and meetings, he failed to start work. This equipment is extremely important for intensive care. This act on the part of this firm has harmed the establishment of these sections in hospital.

This firm has taken the responsibility but having no capability for this project and led to wastage of time of hospital administration. This malpractice is totally against KPPRA and PPRA
