Subject: Tender No. MS/GMCHS/SUKKUR/2851/53 – Tender for the purchase of CT Scan & MRI and other equipment ADP# 1901 (Revenue Component) at GMCH, Sukkur - Opening on 11 April 2013

Dear Sir:

We would like to bring to your kind notice that this tender was not available for sale until yesterday i.e. Monday, 08 April 2013 afternoon.

The delays in the issuance of subject Tender document has left very little time (in reality only one day's time – as on 2nd day our rep has to travel for Sukkur to reach there and submit the tender on 11 April 13 morning) - for the participants to work, search and select the equipment as per tender technical specifications to meet Hospital's requirement.

Besides, there is always requirement to contact our foreign principals/manufacturers to configure the system and negotiate the prices for the benefit of the hospital to provide economical solution, however, it is almost impossible to obtain best prices due to shortage of time.

We would like to draw your attention to a serious issue. The technical specifications for MRI mentioned in the tender are manufacturer-specific and does not provide level playing field for other manufacturers to quote their best and economical systems for the hospital. To make the process transparent and unbiased, it is requested to review and generalize these technical specs so that healthy completion takes place for the benefit of Hospital.

In the light of above facts, we request you to kindly extend the tender submission date for atleast two weeks and revise the technical specifications to meet the SPPRA rules.

Thank and regards
For Raditech International
