Troika begins Cyprus review

NICOSIA: A delegation of the troika of international lenders Tuesday began fourth assessment of Cyprus's economy and troubled banking system to see whether Nicosia is meeting its obligations under the bailout. Cyprus has completed three similar reviews by the troika, which is made up of the European Commission, European Central Bank and International Monetary Fund.

The latest examination will focus on bank restructuring, a proposed national wealth scheme and dealing with non-performing loans. A statement from the Cyprus central bank said troika technocrats will stay until May 12 and on Tuesday there were "general discussions" on capital controls, and bank restructuring.

Last week, Nicosia lifted major domestic capital controls, such as the cashing cheques, put in place more than a year ago to prevent a run on the banks.

In previous reviews the government has been criticised for sticking to a harsh bailout adjustment programme agreed last year with the troika.

Cypriots have endured austerity measures that have slashed private and public sector wages, while consumption taxes have also increased. In return for 10 billion euros (\$14bn) from international lenders, the island in March 2013 agreed to wind down Laiki, its second largest bank, and impose losses on depositors in under-capitalised largest lender, Bank of Cyprus.—AFP

Bids for 10.2 MW Power Project in Sindh Energy Generation (PEDO) at Chitkhwa - Pakistan

EDUM

ENR(P) 244 appeared in national of project on EPC basis. Technical Bids is extended up to 24 on the same.

Director Power Project, Hayatabad Peshawar, Pakistan

ENR(P) 244

Innovation and Technology Doris Bures and Indonesian Transportation Minister EE Mangindaan signed on Monday a memorandum of understanding on cooperation and investment for the development of transportation infrastructure.

The cooperation agreement will involve planning and redesigning transportation infrastructure, sharing technical assistance, technological research, data management and transport-

would focus primarily on land transportation, mostly railway development and land transportation management.

"Austria has helped develop our railway industry since 1995, through support in maintenance, procurement and management. We aim to learn more from them in terms of safer land transportation, as [Austria] is a vital crossroads in Europe," —Asia News Network
