QUALIFICATION / EVALUATION REQUIREMENTS

This section contains the requirements that will be used to evaluate the pre-qualification documents of the bidders. The information to be provided in relation to each requirement and the definitions of the corresponding terms are included in the respective Bid Forms.

1.	Qualification Criteria
-----------	-------------------------------

1.1	General
------------	----------------

Evaluation will be based on all the criteria given in succeeding paras 1.1 to 1.7 regarding the Bidder's general and particular experience, personnel & equipment capabilities, and financial position, as demonstrated by the Bidder's responses in the forms provided under 'Application Forms'. The Employer reserves the right to waive minor deviations, if these don't materially affect the capability of a bidder to perform the contract.

1.2	Mandatory Requirement for Responsive Bids
------------	--

The Bidder shall meet the following minimum criteria:

a) Registration with PEC

Registration with Pakistan Engineering Council in Category C-3, C-2, C-1, C-B & C-A / CE-02.

b) NTN (National Tax Number)

c) Conflict of Interest

No conflict of interest

d) Ineligibility

Not having been declared ineligible by the Employer

e) Historical Contract Non-Performance

The Bidder Shall meet the following minimum criteria:

(i) History of Non-Performing Contracts

Non-Performance of a contract did not occur within the last 5 years prior to the deadline for bid submission based on all information on fully settled disputes or litigation. A fully settled dispute or litigation is one that has been resolved in accordance with the Dispute Resolution Mechanism under the respective contract and where all appeal instances available to the bidder have been exhausted. The past performance of the bidder on all completed and ongoing projects may also be checked in coordination with other executing agencies.

(ii) Failure to Sign Contract

Not being under execution of a Bid Securing Declaration for the last 5 years.

In-House Consultants:

MAH CONSULTING ENGINEERS (PVT.) LTD.
ESS.I.AAR

(iii) Litigation History

All pending litigation shall in total not represent more than fifty (50) % of the Bidder's net worth and shall be treated as resolved against the bidder.

The Bidder should provide accurate information on any litigation or arbitration resulting from contracts completed or under execution over the last five years. A consistent history of award against the Applicant or any partner of a joint venture may result in rejection of the bid.

The Analysis of Litigation History

- The execution of any construction contract will normally result in the payment by the Employer of a number of reasonable claims from the Contractor, e.g. for defaults of the Engineer / Project Manager, delays, unforeseeable ground and climatic conditions, etc. However, some Contractors have an established business practice of bidding low to obtain award of contract; and then flooding the Employer with excessive or frivolous claims to increase their income. Employer should be on guard against any Contractor who habitually resorts to excessive claims, arbitration and litigation in the execution of contracts.
- Bidders with a consistent and significant history of excessive contract arbitrations and litigation resulting in awards or decisions against them should not be qualified to bid. Bidders should be required to list all contracts over a stated period of time (normally five years) that resulted in litigation or arbitration proceedings, with an indication of the matters and amounts in dispute, the parties involved and the resolution of the dispute.
- The criterion for rejection is that of numerous arbitral awards or court decisions against the Bidder in relation to awards for the Bidder, taking the number and amount of contracts executed. As an indicative example, the occurrence of one or two adverse cases over five years for a Contractor handling, on average, ten construction jobs simultaneously, should not be a cause for rejection. If dispute resolution is found relatively frequently in the business of the Bidder, it may indicate an attitude of the management of the firm that could be dangerous for the Employer if the Bidder were awarded the contract, and further investigation with previous Employers may be warranted.

NEELAM CONSULTING ENGINEERS (PVT.) LTD.
ESS.I.AAR

(iv) **Black-Listing**

Bidder shall not be black listed by government / semi government / autonomous / private organizations (Affidavit to be provided).

1.3 Financial Situation

The Applicant shall meet the following minimum criteria:

a) Financial Performance

The Bidder should demonstrate that he has access to, or has available liquid assets, un-encumbered real assets, lines of credit and other financial means sufficient to meet the construction cash flow for the execution of works. Bidder's commitments for other ongoing contracts shall also be considered.

[The duration for the ongoing contracts are calculated by allowing the time of construction from beginning of month invoiced plus the time needed for the Engineer to certify the pay estimate plus the time needed by the Employer to pay the certified amount]

The audited balance sheets for the past five years should demonstrate the soundness of the Bidder's financial position, showing long term profitability. Where necessary, the Employer will make enquires with the Bidder's bankers.

The current soundness of the Bidder's financial position and its long terms profitability will be evaluated on Average Net Working Capital and Average Net worth. The requirements are:-

Average Net Worth Requirement	Rs.72 Million
Average Net Working Capital	Rs.36 Million
Cash Flow Requirement	Rs.154 Million

b) Average Annual Construction Turnover

Minimum average annual construction turnover of Rs.620 Million, calculated as total certified payments received for contracts in progress or completed, within the last five (05) years.

1.4 Experience

The Application shall meet the following minimum criteria:

a) General Construction Experience

Experience under construction contracts in the role of contractor, subcontractor, or management contractor for at least the last five (05) years

In-House Consultants:
