RULES 23-30 OF PUBLIC PROCUREMENT RULES 2010
TECHNICAL SPECIFICATION
NOTES ON THE TECHNICAL SPECIFICATION.

The text of the Technical Specification shall be inserted into the bidding documents by the Employer, as applicable to each contract.

Reference to brand names, catalogue number or other details that limit any materials or items to a specific manufacture should be avoided as far as possible. Where unavoidable, such item description should always be followed by the words or substantially equivalent.

Where standard specification or codes of practices are referred to a statement should follow that other national or international standards that ensure substantial equivalent will also be acceptable. Unless specifically indicated to the contrary, the latest available edition of any named standards and codes will be deemed to apply.

Technical specifications shall normally be fully descriptive and give the full requirements in respect of but not limited to the following.

- (a) Standards of materials and workmanship required.
- (b) Details of all factory tests required (type and number.)
- (c) Details of all functional guarantees are not met.
- (e) all documents required in terms and conditions

Applied in the event that essential technical and performance characteristic and requirements in including maximum or minimum acceptable values as appropriate be summarized in a specific section, to be completed by the bidder and attached as an attachment to the bid For.

Attention is also drawn to the appendixes to the Form of Contract Agreement in the bidding documents. There shall be consistency in the requirements specified in both section.

Where the bidders are to provide part or all of the technical specifications. Technical schedules or other technical information the nature and extent of the required details and manner in which they are to be presented by the bidders in their bids shall clearly identified.
