Please refer to your letter No. cited as above.

In this context, it is stated that the explanation sent to you through this office letter No. TC/G-55/864, dated: 11.09.2019 was very much relevant to the observations taken by your authority. However to elaborate the position upon the observations/ infirmity pointed out by you, the item wise reply is submitted here under:-

i). The earnest money as mentioned against each work in the NIT published and hoisted in your authority webportal is the performance security to fulfill the pointed out criteria of Rule-21(i)(d) and Rule-39 of SPP Rules-2010.

Rule-39 explains that the security may be obtained in the form of pay order, demand draft or bank guarantee and in the instant NIT, performance security obtained in shape of Call Deposit / Demand Draft and there is no irregularity.

ii). Annual Turnover of last three years was included in the eligibility criteria of the subjected NIT at SR.No. 12. There is no rule to mention an accurate figure in rupees for annual financial turnover. Whereas, as provided in Guidelines/regulation for procurement of works at Sr.No. 2.6, the procuring agency may ask for information limited to documents that are essential to ensure the bidders capability to perform contract. The invited works were for electrification of nominal value and the financial turnover of last three years was sufficient to ascertain the capability of contractor thus there is no deviation from provided provision of SPP Rules-2010.
