TECHNICAL EVALUATION REPORT

**TENDER FOR PLANT & MACHINERY (MEDICAL EQUIPMENTS), OPENED ON DATED: 19TH MAY, 2014 AND TIME: 01:00 P.M.
NO. OF BIDS RECEIVED: 04 (FOUR)**

S.#	Criteria for Evaluation	M/s. ENDO-KARE Karachi	M/s. ONTECH CORP. Karachi	M/s. NEUCON Pvt. Ltd. Karachi	M/s. ALLMED SOLUTIONS Karachi
	Quoted Price	As per quotation	As per quotation	As per quotation	As per quotation
	DOCUMENTATION:				
01	Bid Validity : 90 Days.	Mentioned	Mentioned	Mentioned	Mentioned
02	Bid form & price schedule completed.	Yes	Yes	Yes	Yes
03	Photocopy of Bid Security not disclosed the amount.	Yes	Yes	Yes	Yes
04	Original Tender Purchase receipt.	Yes	Yes	Yes	Yes
05	Separate receipt in case of alternate offer.	Not applicable	Not applicable	Not applicable	Not applicable
06	Certificates: (a) Professional Tax (Excise & Taxation) (b) Income Tax. (c) GST Registration.	Yes Yes Yes	--- Yes Yes	--- Yes Yes	--- Yes Yes
07	Bid having any condition or adjustable price.	Nil	Nil	Nil	Nil
08	Tender Specification compliance:				
09	Items quoted.	Yes	Yes	Yes	Yes
10	Original Catalogue / Drawings.	Yes	No	No	Yes (Photostat)
11	Tender Specification confirmed (Item wise Technical Evaluation Reports herewith Attached)	Yes	Yes	No	Yes

Conclusion / Recommendations:-

- Bids of M/s. ONTECH CORP. Karachi & M/s. NEUCON Pvt. Ltd. Karachi is not fulfilling the tender requirement/specification and criteria as mentioned against each, hence these offers are technically disqualified.
 - Bid of M/s. ENDO-KARE Karachi & M/s. ALLMED SOLUTION, Karachi are meeting the requirements/ specification and criteria, hence their bid offers are technically qualified as following items wise.
 - M/s. ENDO-KARE Karachi has technically qualified Item Nos. 1,2,3,4,5,6,7,8,9,10 & 11 M/s. ALLMED SOLUTIONS, Karachi has also technically qualified in Item Nos. 1,2,3,4,7 & 9.
 - M/s. ALLMED SOLUTIONS, Karachi and M/s. ENDO-KARE Karachi both technically qualified from Item No. 12 to 64.
- Remarks:-** The Procurement Committee as decided to finalize to purchase of all hand instruments from one manufacturer. All hand instruments, who will be the 1st lowest in the majority items due to system compatibility.

COMPARATIVE STATEMENT (FINANCIAL)

Tender for Purchase of PLANT & MACHINERY (WORKSHOP EQUIPMENTS)

Technical Bids opened on 19-05-2014 time:01:00 P.M. Financial Bids opened on 29-05-2014 time:12:00 Noon

No. of Bids Received: 03 (Three)

No. of Bids Qualified: 01 (One)

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
01	<p><u>Infant Airway Management Trainer</u></p> <p>Provides realistic anatomy for teaching and practicing infant intubation. Correct tube placement can be checked by practical inflation test. Realistic anatomy of the tongue, oropharynx, epiglottis, larynx, vocal cords, and trachea. Soft skin and features for a "babylike" feel. Airway lubricant included With Video/CD/DVD & Chart. USA/Europe</p>	1	266,000	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
02	<p><u>Adult Venipuncture and Injection Training Arm</u></p> <ul style="list-style-type: none"> • Realistic Flashback • Replaceable Skins • Intramuscular Injection Site • Complete with Fingerprints <p>Simple and easy to use. Life/form® Venipuncture and Injection Training Arms are the ideal way to teach venipuncture and injection techniques including starting IVs and introducing Over the Needle IV catheters. This simulator ends your problem of finding willing volunteers, and helps to avoid patient injury and liability while the students are learning new procedures. Realism begins with fine detail - right down to the fingerprints. But most important is the realistic feeling of puncture through the vinyl skin and latex veins. The skin actually rolls as you palpate the vein and the characteristic "pop" can be felt as the needle penetrates the vein. Veins are accessible at the antecubital fossa, along the forearm, and at the back of the hand, making it possible to practice venipuncture at any of the common sites. Practice of intramuscular injection is equally realistic. A foam pad simulates muscle tissue, and the boundaries are identified by natural bone-like landmarks. Life/form® Venipuncture and Injection Arms are designed with replaceable skins and veins. Complete replacement skin kits are available and easy to use. To extend the life of each skin/vein set, an aerosol sealant is available to seal punctures in the tubing and prevent leakage. Includes a Life/form® arm with skin, 22 gauge needle, butterfly set, infusion set, 3 cc syringe, 12 cc syringe, one pint Life/form® blood, fluid supply bags, instruction manual, and hard carry case With Video /CD/DVD & Chart. USA/Europe</p>	1	182,500	"

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
03	<p>Obstetrical Manikin</p> <p>An anatomically correct pelvic model with full term newborn and placenta to give your trainees realistic practice in multiple techniques, and to learn the procedure for emergency childbirth. Disposable umbilical cords with clamps, easily replaced extra vulva, powder to make simulated blood, a modular pregnant belly overlay with permanently installed fetus for training practice of Leopold's maneuver to determine the fetus' lie by palpating its skull and kneecaps, and a clear abdominal overlay to see positioning are all included. The lifelike pelvic cavity has pronounced pelvic landmarks, located spinal column, angled birth canal, ilium, ischium, sacrum, sacro spinous ligaments, and greater sciatic notch. The fetus provided is of a realistic newborn size with fontanels and cranial sutures. A soft carry bag is included With Video /CD/DVD & Chart.</p> <p>USA/Europe.</p>	1	197,000	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
04	<p>NOELLE® Maternal and Neonatal Birthing Simulator</p> <p>Designed to provide a complete birthing experience before, during, and after delivery. Simulator features include full-size articulating female manikin, intubatable airway with chest rise, IV arm for meds/fluids, removable stomach cover, practice Leopold maneuvers, multiple fetal heart sounds, automatic birthing system, measure head descent and cervical dilation, multiple placenta locations, replaceable dilating cervixes, one articulating birthing baby with placenta, and one resuscitation baby with intubatable airway and umbilical catheter site. Also contains new postpartum hemorrhage and palpation module. Comes with two umbilical cords, two dilating cervixes, two vulva inserts, three vulva for postpartum suturing, two umbilical clamps, talcum powder, water-soluble silicone lubricant, training guide, and carry bag with Video /CD/DVD & Chart.</p> <p>USA/Europe</p>	1	1,353,300	"
05	<p>Advanced Childbirth Simulator</p> <p>A total simulator for demonstration of all standard obstetrical procedures:</p> <ul style="list-style-type: none"> • Fetal Palpation • Breech Birth • Normal Birth • C-Section Delivery • Episiotomy • Vertex Presentation • Prolapse of Umbilical cord <p>Features include a removable diaphragm end plate and removable stomach cover for manual positioning of fetus; life-size pelvic cavity with all major anatomical landmarks; ultra-soft vulval insert for episiotomy exercises; simulated dorsosacral position for realistic delivery technique. Cannot do the Leopold procedure on this simulator. Forceps can be used during simulation. All parts in this simulator are replaceable. The Advanced Childbirth Simulator with vinyl skin includes two fetal babies with umbilical cords and placentas; spare stomach cover, two vulva inserts, four spare umbilical cords, two umbilical clamps, talcum powder, instruction manual, and soft carrying bag.</p> <p>With Video /CD/DVD & Chart.</p> <p>USA/Europe</p>	1	159,600	"

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
06	<p><u>Neo-Natal Intubation Trainer Model</u></p> <p>Life-size reproduction of a neonatal head and lungs designed for practicing neonatal intubation procedures. Practice endotracheal tube insertion and securing. Anatomically accurate landmarks. Simulated lungs. Mounted on base. Silicone spray included With Video /CD/DVD & Chart. USA/Europe</p>	1	221,800	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
07	<p><u>ZOE® Gynecologic Simulator</u></p> <p>Designed by physicians for physicians and health care providers, this gynecologic examination simulator combines the ability to demonstrate multiple gynecologic procedures as well as practice laparoscopic examination and minilaparotomy. Features: full-size adult female lower torso with relevant internal anatomic landmarks, bi-manual pelvic examination, palpation of normal and pregnant uteri, vaginal examination (including insertion of speculum), visual recognition of normal and abnormal cervixes, uterine sounding, IUD insertion and removal, contraceptive sponge insertion and removal, female condom insertion and removal, diaphragm and cervical cap insertion and removal, laparoscopic visualization and occlusion of fallopian tubes, minilaparotomy, one anteverted and one retroverted parous uterus, one 10-week pregnant uterus, one postpartum uterus, five normal cervixes with patent os, four abnormal cervixes, 10 fallopian tubes, realistically sculpted and anatomically accurate ovaries and fimbriae, and uterus and cervix feature patented "screw" design for fast and easy change-out. Simulator comes with talcum powder, K-Y Jelly, instruction manual, and soft nylon carrying bag With Video/CD/DVD & Chart. USA/Europe</p>	1	170,800	"
08	<p><u>Pelvic Examination Simulator Set</u></p> <p>Life/form® Pelvic Examination Simulators are designed to facilitate the teaching, demonstrating, and practicing of pelvic examination for tumor detection. This life/form® product consists of a set of two simulators. Each simulator is identical in outward appearance, as each was made from the same mold. However, the palpable internal structure differs. One of the simulators is considered "normal" and contains normal ovaries, cervix, and uterus. The other "abnormal" simulator has an ovarian cyst; the ovary has a solid tumor, and the uterus is indicative of leiomyoma uteri. Bony landmarks and normal and atypical organs are anatomically correct in size, shape, texture, and location. The tumor and masses are also placed to ensure anatomical accuracy, and they are texturally realistic. Palpation and manipulation with hands and fingers in and on the internal and external genitalia, abdominal wall, ovaries, and uterus can be performed with very realistic tactile experience. These simulators are intended for digital examination only; use of a vaginal speculum is not recommended. The Pelvic Examination Simulator Set includes two simulators ("normal" and "abnormal"), instruction manual, lubricant, glove, and two hard carry cases With Video /CD/DVD & Chart. USA/Europe.</p>	1	380,000	"

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
09	<p><u>Pelvic Bone with Fetal Heads on Stand</u></p> <p>A female pelvis and two fetal heads designed to demonstrate the birth process. The two interchangeable heads, one full term, the other premature, are fastened to a flexible shaft to allow passage, in different positions, through the pelvic outlet. Both fetal heads contain skulls with palpable cranial sutures and anterior and posterior fontanels. The models can also be used with Video /CD/DVD & Chart. USA/Europe</p>	1	129,000	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
10	<p><u>Blood Pressure Simulator</u></p> <p>Designed to easily attach to the shoulder openings of CPARLENE® and Resuscici® Anne™ brand manikins. The arm is hinged to swing away from the body for easy accessibility. The arm is programmed to demonstrate the five Korotkoff phases, and an auscultatory gap switch may be used to simulate the auscultatory gap that is sometimes present between Phase I and Phase II sounds. Separate switches control the volume and the optional external speaker system. The speaker system can be used to demonstrate the sounds that can be heard while measuring a patient's blood pressure without using the stethoscope and arm assembly. Separate pulse rate control varies the frequency of heart rate from approximately 50-100 beats per minute. The Blood Pressure Simulator includes a sphygmomanometer cuff and gauge assembly. Low-battery indicator lamp. Includes four "AA" batteries. See optional speaker with Video /CD/DVD & Chart. USA/Europe.</p>	1	303,200	“
11	<p><u>Male Catheterization Simulator</u></p> <p>Catherization is one of the basic skills all nursing students must learn, and to learn the techniques, they must practice. Any patient volunteers? Not likely! But the Life/form® simulator allows demonstration and practice in urinary catheterization without embarrassment or discomfort to the patient or the students. In addition, the catheterization simulator is useful for anatomical identification and demonstration of perineal care. The realism of Nasco's Life/form® Female Catheterization Simulator will help your students bridge the gap from classroom to bedside with ease and comfort. With the Life/form® Male Catheterization Simulator, catheterization can be practiced just as on a real patient. A lubricated catheter can be inserted in the urethral orifice, passed through the urethra, and into the bladder. When the bladder is successfully entered, artificial urine (water) will flow from the catheter.</p> <p>The student will feel the normal restrictions caused by the mucosal folds, bulbous urethra, and the internal urethral sphincter, just prior to entrance into the bladder. The experience teaches proper positioning and movement of the penis to allow the catheter to pass easily with a minimum of discomfort to the patient. Includes a hard carrying case, lubricant, catheter, and teaching guide with Video/CD/DVD & Chart. USA/Europe.</p>	1	176,000	“

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
12	<p>Female Catheterization Simulator</p> <p>Catheterization is one of the basic skills all nursing students must learn, and to learn the techniques, they must practice. Any patient volunteers? Not likely! But Life/form® simulators allow demonstration and practice in urinary catheterization without embarrassment or discomfort to the patient or the students. In addition, catheterization simulators are useful for anatomical identification and demonstration of perineal care. The realism of Life/form® Catheterization Simulators will help your students bridge the gap from classroom to bedside with ease and comfort. The Life/form® Female Catheterization Simulator is constructed with a bladder reservoir, patient urethra, and a valve simulating the internal urethral sphincter. The normal feeling of resistance and pressure will be experienced as a catheter is passed through the urethra, past the sphincter, and into the bladder. When the catheter enters the bladder, artificial urine (water) will flow from the catheter just as in a real patient, and the cuff must be completely deflated before the catheter is removed. Improper use of a Foley can result in damage to the simulator. This simulator is the torso of a middle-aged woman with thighs abducted for proper position during catheterization. The external genitalia and perineum are molded in lifelike form. The labia minora can be spread apart naturally to reveal the clitoris, urethral opening, and vaginal introitus. Includes a hard carrying case, lubricant, catheter, and teaching guide with Video/CD/DVD & Chart.</p> <p>USA/Europe.</p>	1	176,000	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
13	<p>Eva Gynecological Training Manikin</p> <p>This simulator permits students to practice abdominal palpation, speculum insertion and removal, uterine sounding, diaphragm fitting, vaginal and recto-vaginal bimanual examination, identification of ectopic pregnancy, and the evaluation of the size and shape of a normal and pregnant uterus. This simulator features a vinyl plastic skin pulled over soft foam with a pelvic borne with normal uterus a pregnancy uterus, five cervixes (one normal and 4 pathological) with Video/CD/DVD & Chart.</p> <p>USA/Europe.</p>	1	215,300	“
14	<p>Model of the Female Genital Organs</p> <p>This model has been developed to promote the knowledge of female anatomy gained in light of current research. This model has been produced in co-operation with biologists, sex educationalists, se) (therapists, sexual researchers, Gynaecologists and urologists. Individual organs are colour coded for easy identification Green: Ovaries, fallopian tubes, womb (uterus) and vagina Yellow, orange, pink and blue: Bladder, urethra, female prostate, clitoris, vestibular bulbs - capillary tissue which swells during arousal Pink: Intestine and pelvic floor with Video/CD/DVD & Chart.</p> <p>USA/Europe.</p>	1	337,500	“
15	<p>Ear Examination Supplementary Set for Advanced Training</p> <p>Includes chronic otitis media with large perforation, attic cholesteatoma (A), attic cholesteatoma (B), and atelectatic middle ear otitis and tympanosclerosis (all photos embedded). For use with Life/form® Ear Examination Simulator</p>	1	295,800	“

S/NO	Specification of Item	Qty (Nos)	M/s. Paktech Inst. Co. Rate Per Unit PAK (Rs)	Remarks
16	<p>Central Venous Cannulation Simulator</p> <p>Central Venous Cannulation Simulator is directed to the emergency medical field. ACLS and ATLS participants will find this simulator to be the ideal trainer. Anatomically accurate, palpation is exactly the same as on a patient. The sternal notch, sternocleidomastoid, clavicle, and other supporting features make this simulator a pleasure to work with. Internal features include a replaceable muscle and bone section, subclavian, internal jugular, external jugular, and carotid. Use of a Swan-Ganz catheter is possible and changing of the internal tubing is extremely easy. The neck of the simulator is positioned to the left, making landmark identity quite easy visually. The sternal notch "sinks" 1-1.5 cm when palpated. All external and internal landmarks correlate to a live patient. Modified to meet ATLS and ACLS standards, this simulator has proven itself in the emergency medical field</p>	1	247,500	1 st Lowest recommended M/s. Paktech Inst. Co. Karachi
17	<p>Tracheostomy Care Simulator</p> <p>Suctioning</p> <ul style="list-style-type: none"> • Cuff Inflation • Dressing Changes • Visual Landmarks • Visual Verification of Bronchial Location <p>The Life/form® Tracheostomy Care Simulator is the most realistic approximation of a patient available today. Careful attention to detail is incorporated into this pseudo-patient. Suctioning techniques, proper cuff inflation, dressing changes, and other techniques can be practiced and critiqued. The simulator replicates an adult male containing oral and nasal passages and all appropriate anatomy - pharynx, epiglottis, trachea, esophagus, stoma, cricoid cartilage, and representative cervical vertebrae. The chest area contains left and right bronchi and the bronchial tree. The esophagus "dead ends" 2" below the trachea opening. The side of the neck and chest area over the bronchial tree allow viewing of the suction and trachea tube.</p>	1	187,300	"
18	<p>Breast Examination Simulator</p> <p>The viewing window at the bottom of the simulator shows the location of a suction catheter in the right bronchus (seen) or left bronchus (unseen). Oral, nasopharyngeal, nasotracheal, and tracheal suctioning can be practiced. Cleansing of the stoma area can be performed just as on an actual patient. Changing dressings and ties is also possible, and the experience is very close to an actual one. Confidence and practice are at your fingertips with this Life/form® Tracheostomy Care Simulator</p>	1	194,500	"
	<p>The most lifelike model available for teaching and practicing breast palpation techniques. Useful for both health care students and patients, this is an excellent model for hospitals and medical clinics to use in teaching women the proper techniques of breast examination. Special vinyl formulations have been used to create the most lifelike look and feel possible. A unique feature of this simulator is the realistic fluid breast mass. This mass allows displacement of breast tissue under palpation almost exactly as it occurs in a live patient</p>			

Each breast contains abnormalities. The left has a small nodule in the upper outer quadrant and a fibroadenoma in the lower inside quadrant. The right breast has a fixed lump in the upper outer quadrant, a fluid filled cyst in the lower inside quadrant, and a round lump movable discrete mass directly under the nipple.

The simulator allows women to practice all phases of breast examination in both a sitting and supine position. This lightweight simulator is designed with a concave back to allow placement against the patient for ease in demonstrating or practicing palpation techniques.

The Life/form® Breast Examination Simulator is complete with teaching guide, American Cancer Society Guide to Breast Examination, and storage box. Now also includes a neck strap (3 ft. long) and a waist strap (4 ft. long) that are adjustable and can be strapped on

TOTAL= Rs.5,193,100/-

Total Amount in words (Fifty-One Lacs, Ninety-Three Thousands & One Hundred Rupees only)

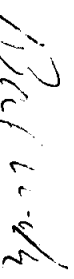

Remarks: The procurement Committee recommended to accept the 1st Lowest M/s. Paktech Inst. Co. Karachi responsive bid at their quoted rates. Submitted to the Principal/ Project Director, S.M.B.B.M.C. Lyari Karachi for further process accordingly.
