42.	<p><u>Walk Through Gate for Security</u>            Complete security detection, multi-zone alarm displays, high discrimination &amp; detection speed and High immunity to external interferences. High reliability with double alert. Six body alert partition zones are displayed on the operation plate. With total gate sensitivity adjustment and each zone sensitivity can be individually adjusted. Highly visible double display. Provides the location of weapons in transit. Display accurate location. Six overlapping mesh detection region, bilateral launch, bilateral receiver can pinpoint detecting objects, digital display, through LED light-emitting section display the location of metal objects. Through the control panel, remote control, computer to operate it, password-protected settings, and can display parameter settings and detection data in the computer. Conform to the current international security standards, conforming to ISO 9000 Quality Control Standard procedures.            Automatic calculating passer number &amp; alarm number functions, and display separately for four digits. Induction to all metals, and have intelligent recognising processing functions. Automatic checking and recovery function. Divide it into six detecting areas in it, such as: zone 1, zone 2, zone 3, zone 4, zone 5, zone 6 in a human body. When carrying any small mass metal through it, an alarm is given out, thus to get an accurate warning location. The two sides of door with LED partition warning display lights. Sensitivity adjustment by manual. Multi-zone simultaneous alarm walk-through metal detector.</p>	1	Unit	NA	NA	NA	NA	NA
