3. DETAILED EVALUATION

3.1 **Introduction**

This section of the report presents the detailed evaluation of bids to determine the corrected bid prices through arithmetic check. Because of the excessive variations in prices evidenced in the evaluation of bids, a general comparison is considered useful for guidance and reference purposes. Result of this general comparison, aimed at highlighting relative variations between individual bidder's prices as well as relative to the Engineer's estimates, is offered in the ensuing Section 3.3.

3.2 **Arithmetical Check of Bids**

Bids have been checked for arithmetic errors and rectified on the basis of Clause ITB 27 of Instructions to Bidders, which provides:

Quote

"27.1 Bids determined to be substantially responsive will be checked by the procuring agency for any arithmetic errors. Errors will be corrected by the procuring agency as follows:

- (a) where there is a discrepancy between the amounts in figures and in words, the amount in words will govern; and*
- (b) where there is a discrepancy between the unit rate and the line item total resulting from multiplying the unit rate by the quantity, the unit rate as quoted will govern, unless in the opinion of the procuring agency there is an obviously gross misplacement of the decimal point in the unit rate, in which case the line item total as quoted will govern, and the unit rate will be corrected.*

27.2 The amount stated in the Bid will be adjusted by the procuring agency in accordance with the above procedure for the correction of errors and, with the concurrence of the bidder. The amount thus corrected shall be considered as binding upon the bidder. If the bidder does not accept the corrected bid price, his bid will be rejected, and the bid security shall be forfeited in accordance with Sub-Clause 15.6(b) hereof." Un-Quote

An arithmetical check of the Bidders' BOQ has been carried out and prices corrected in accordance with the procedure provided in IB Clause 27 above. The results are attached at the end of this report.

3.3 Evaluation of Bids

The evaluation of price bids has been carried out in accordance with Clause IB 28 of Instruction to Bidders, which provides;

Quote

"28.1 The procuring agency will evaluate and compare only the Bids determined to be substantially responsive in accordance with clause IB 26.

28.2 In evaluating the Bids, the procuring agency will determine for each bid the evaluated bid price by adjusting the bid price as follows:

- (a) making any correction for errors pursuant to clause IB 27;*
- (b) excluding provisional sums (if any), for contingencies in the Summary Bill of Quantities, but including competitively priced Day work; and*
- (c) making an appropriate adjustment for any other acceptable variation or deviation." Un-Quote*

The detailed evaluation of all bids is placed at Table 4.1 and 4.2 and the resulting corrected bid price of each bidder for this contract package thereby emerge out as follows;

3.2 Responsiveness Study

The responsiveness or otherwise of the Bids is determined on the basis of Clause IB-26.2 of Instructions to Bidders. Sub-clause 26.2 of IB provides:

Quote

"26.2 Once found to be fulfilling the eligibility criteria, as mentioned in sub-clause 26.1, the bids of eligible bidders will be evaluated for technical responsiveness as per specification and criteria given in the bidding documents....." Un-quote

IB Clause 26.3 states the criteria of responsiveness

Quote

"A bid will be considered technically responsive if it (i) has been properly signed; (ii) is accompanied by the required bid security; and (iii) conforms to all the terms, conditions and specifications of the bidding documents, without material deviation or reservation. A material deviation or reservation is one (i) which affect in any substantial way the scope, quality or performance of the works; (ii) which limits in any substantial way, inconsistent with the bidding documents, the procuring agency's rights or the bidder's obligations under the contract; or (iii) adoption/rectification whereof would affect unfairly the competitive position of other bidders presenting substantially responsive bids.

The Procuring Agency's determination of a Bid's responsiveness is to be based on the contents of the bid itself, as defined in IB 11.

A substantially responsive Technical Bid is one that meets the requirements of the Bidding Document without material deviation.

The Procuring Agency shall examine the technical aspects of the Bid submitted in accordance with IB 11, Technical Proposal, in particular, to confirm that all requirements of Works and Biding Documents have been met without any material deviation." Un-quote

- c) Method of Performing the Work in detail
- d) List of Major Equipment
- e) Construction Camp and Housing Facilities
- f) List of Subcontractors
- g) Organization Chart for Supervisory Staff
- h) Integrity Pact

Based on the standard procedures, Check lists have been prepared, one for each of the bidders, for the documents submitted by them. The results of responsiveness study are summarized in Annexure-1 and Table 1, 2, 3 and 4.

However, to declare the bids responsive or otherwise, the Instruction to Bidders Clause IB 26.4 was studied which states

Quote

"If a bid has major deviations to the commercial requirements and technical specifications will be considered technically non responsive. As a general rule, major deviations are those that if accepted, would not fulfil the purposes for which the bid is requested, or would prevent a fair comparison or affect the ranking of the bids that are compliant with the bidding documents.

(A). Major (material) Deviations include:-

- (i) *has been not properly signed;*
- (ii) *is not accompanied by the bid security of required amount and manner;*
- (iii) *stipulating price adjustment when fixed price bids were called for;*
- (iv) *failing to respond to specifications;*
- (v) *failing to comply with Mile-stones/Critical dates provided in Bidding Documents;*
- (vi) *sub-contracting contrary to the Conditions of Contract specified in Bidding Documents;*
- (vii) *refusing to bear important responsibilities and liabilities allocated in the Bidding Documents, such as performance guarantees and insurance coverage;*
- (viii) *taking exception to critical provisions such as applicable law, taxes and duties and dispute resolution procedures;*
- (ix) *a material deviation or reservation is one :*
 - (a) *which affect in any substantial way the scope, quality or performance of the works;*
 - (b) *adoption/rectification whereof would affect unfairly the competitive position of other bidders presenting substantially responsive bids.*

(B) Minor Deviations

Bids that offer deviations acceptable to the Procuring Agency and which can be assigned a monetary value may be considered substantially responsive at least as to the issue of fairness. This value would however be added as an adjustment for evaluation purposes only during the detailed evaluation process.

Provided that a bid is substantially responsive, the Procuring Agency may waive any non-conformity in the Bid that does not constitute a material deviation, reservation or omission.

Provided that a Technical Bid is substantially responsive, the Procuring Agency may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities in the Technical Bid related to documentation requirements. Requesting information or documentation on such nonconformities shall not be related to any aspect of the Price Bid. Failure of the Bidder to comply with the request may result in the rejection of its Bid.

Provided that a Technical Bid is substantially responsive, the Procuring Agency shall rectify nonmaterial nonconformities related to the Bid Price. To this effect, the Bid Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component.

The Procuring Agency shall determine to its satisfaction during the evaluation of Technical Bids whether Bidders meet the Employer's Requirement and other requirements specified in Clause 11 of the Instructions to Bidders.

The determination shall be based upon an examination of the documentary evidence of the Bidder's submitted documents, pursuant to Clause 11

An affirmative determination shall be a prerequisite for the opening and evaluation of a Bidder's Price Bid. A negative determination shall result into the disqualification of the Bid, in which event the Procuring Agency shall return the unopened Price Bid to the Bidder." Un-quote

Based on above evaluation and in light of Clause IB 26.4, assessment of the responsiveness of each of the bids received is as follows:

S.#	Name of Bidders	Status of Bid

3.	M/s Mian Abdul Jabbar & Co	Responsive

3. DETAILED EVALUATION

3.1 *Introduction*

This section of the report presents the detailed evaluation of bids to determine the corrected bid prices through arithmetic check. Because of the excessive variations in prices evidenced in the evaluation of bids, a general comparison is considered useful for guidance and reference purposes. Result of this general comparison, aimed at highlighting relative variations between individual bidder's prices as well as relative to the Engineer's estimates, is offered in the ensuing Section 3.3.

3.2 *Arithmetical Check of Bids*

Bids have been checked for arithmetic errors and rectified on the basis of Clause ITB 27 of Instructions to Bidders, which provides:

Quote

** 27.1 Bids determined to be substantially responsive will be checked by the procuring agency for any arithmetic errors. Errors will be corrected by the procuring agency as follows:*

- (a) where there is a discrepancy between the amounts in figures and in words, the amount in words will govern; and*
- (b) where there is a discrepancy between the unit rate and the line item total resulting from multiplying the unit rate by the quantity, the unit rate as quoted will govern, unless in the opinion of the procuring agency there is an obviously gross misplacement of the decimal point in the unit rate, in which case the line item total as quoted will govern, and the unit rate will be corrected.*

27.2 The amount stated in the Bid will be adjusted by the procuring agency in accordance with the above procedure for the correction of errors and, with the concurrence of the bidder. The amount thus corrected shall be considered as binding upon the bidder. If the bidder does not accept the corrected bid price, his bid will be rejected, and the bid security shall be forfeited in accordance with Sub-Clause 15.6(b) hereof. Un-Quote*

An arithmetical check of the Bidders' BOQ has been carried out and prices corrected in accordance with the procedure provided in IB Clause 27 above. The results are attached at the end of this report.

3.3 Evaluation of Bids

The evaluation of price bids has been carried out in accordance with Clause IB 28 of Instruction to Bidders, which provides;

Quote

**28.1 The procuring agency will evaluate and compare only the Bids determined to be substantially responsive in accordance with clause IB 26.*

28.2 In evaluating the Bids, the procuring agency will determine for each bid the evaluated bid price by adjusting the bid price as follows:

- (a) making any correction for errors pursuant to clause IB 27;*
- (b) excluding provisional sums (if any), for contingencies in the Summary Bill of Quantities, but including competitively priced Day work; and*
- (c) making an appropriate adjustment for any other acceptable variation or deviation.* Un-Quote*

The detailed evaluation of all bids is placed at Table 4.1 and 4.2 and the resulting corrected bid price of each bidder for this contract package thereby emerge out as follows;

1. M/s Umer Jan & Comapny		
▪ Quoted Price	...	Rs. 265,105,192

3.2 Responsiveness Study

The responsiveness or otherwise of the Bids is determined on the basis of Clause IB-26.2 of Instructions to Bidders. Sub-clause 26.2 of IB provides:

Quote

"26.2 Once found to be fulfilling the eligibility criteria, as mentioned in sub-clause 26.1, the bids of eligible bidders will be evaluated for technical responsiveness as per specification and criteria given in the bidding documents....." Un-quote

IB Clause 26.3 states the criteria of responsiveness

Quote

"A bid will be considered technically responsive if it (i) has been properly signed; (ii) is accompanied by the required bid security; and (iii) conforms to all the terms, conditions and specifications of the bidding documents, without material deviation or reservation. A material deviation or reservation is one (i) which affect in any substantial way the scope, quality or performance of the works; (ii) which limits in any substantial way, inconsistent with the bidding documents, the procuring agency's rights or the bidder's obligations under the contract; or (iii) adoption/rectification whereof would affect unfairly the competitive position of other bidders presenting substantially responsive bids.

The Procuring Agency's determination of a Bid's responsiveness is to be based on the contents of the bid itself, as defined in IB 11.

A substantially responsive Technical Bid is one that meets the requirements of the Bidding Document without material deviation.

The Procuring Agency shall examine the technical aspects of the Bid submitted in accordance with IB 11, Technical Proposal, in particular, to confirm that all requirements of Works and Biding Documents have been met without any material deviation." Un-quote

- h) Integrity Pact

Based on the standard procedures, Check lists have been prepared, one for each of the bidders, for the documents submitted by them. The results of responsiveness study are summarized in Annexure-1 and Table 1, 2, 3 and 4.

However, to declare the bids responsive or otherwise, the Instruction to Bidders Clause IB 26.4 was studied which states

Quote

"If a bid has major deviations to the commercial requirements and technical specifications will be considered technically non responsive. As a general rule, major deviations are those that if accepted, would not fulfil the purposes for which the bid is requested, or would prevent a fair comparison or affect the ranking of the bids that are compliant with the bidding documents.

(A). Major (material) Deviations include:-

- (i) *has been not properly signed;*
- (ii) *is not accompanied by the bid security of required amount and manner;*
- (iii) *stipulating price adjustment when fixed price bids were called for;*
- (iv) *failing to respond to specifications;*
- (v) *failing to comply with Mile-stones/Critical dates provided in Bidding Documents;*
- (vi) *sub-contracting contrary to the Conditions of Contract specified in Bidding Documents;*
- (vii) *refusing to bear important responsibilities and liabilities allocated in the Bidding Documents, such as performance guarantees and insurance coverage;*
- (viii) *taking exception to critical provisions such as applicable law, taxes and duties and dispute resolution procedures;*
- (ix) *a material deviation or reservation is one :*
 - (a) *which affect in any substantial way the scope, quality or performance of the works;*
 - (b) *adoption/rectification whereof would affect unfairly the competitive position of other bidders presenting substantially responsive bids.*

(B) Minor Deviations

Bids that offer deviations acceptable to the Procuring Agency and which can be assigned a monetary value may be considered substantially responsive at least as to the issue of fairness. This value would however be added as an adjustment for evaluation purposes only during the detailed evaluation process.

Provided that a bid is substantially responsive, the Procuring Agency may waive any non-conformity in the Bid that does not constitute a material deviation, reservation or omission.

Provided that a Technical Bid is substantially responsive, the Procuring Agency may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities in the Technical Bid related to documentation requirements. Requesting information or documentation on such nonconformities shall not be related to any aspect of the Price Bid. Failure of the Bidder to comply with the request may result in the rejection of its Bid.

Provided that a Technical Bid is substantially responsive, the Procuring Agency shall rectify nonmaterial nonconformities related to the Bid Price. To this effect, the Bid Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component.

The Procuring Agency shall determine to its satisfaction during the evaluation of Technical Bids whether Bidders meet the Employer's Requirement and other requirements specified in Clause 11 of the Instructions to Bidders.

The determination shall be based upon an examination of the documentary evidence of the Bidder's submitted documents, pursuant to Clause 11

An affirmative determination shall be a prerequisite for the opening and evaluation of a Bidder's Price Bid. A negative determination shall result into the disqualification of the Bid, in which event the Procuring Agency shall return the unopened Price Bid to the Bidder." Un-quote

Based on above evaluation and in light of Clause IB 26.4, assessment of the responsiveness of each of the bids received is as follows:

S.#	Name of Bidders	Status of Bid
