The technical committee comprising of the following members discussed the tender document of rodent cages, for animal house, on 4th October, 2013 at HEJ Research Institute. Five tenders were received for the rodent cages. S.K. trading corporation provided cages which cannot be autoclaved which is not according to our requirement, since we required autoclavable as per tender specification. Roghny Sons did not provide cage body with inner fitting lid. We required cage body with inner fitting as per tender specification. Because of these reasons, both could not meet our specification. Rests of the three bids were in compliance to the specifications of the product.

Recommendations

The lowest tender submitted by techno medical system who offered techniplast rodent cages is recommended for contact award.
