COMPARATIVE STATEMENT

The Tenders were invited through National dailies "The NEWS" Karachi, published on dated 13.09.2013, "JANG" Karachi on dated 14.09.2013 and "KAWISH" Hyderabad on dated 16.09.2013 for the purchase of Medicines/ drugs, X-RAY Films/Chemicals, etc for the use of Health Institutions of District Tharparkar during the financial year 2013-14.

Justification: Regarding for the purchase of X-Ray films and chemicals. Only one bid of M/S Fuji Film Pakistan Limited has quoted complete range as per tender specification, where as M/S Puras Enterprises Karachi and ABA Enterprises Sukkur have quoted fixer/ developer chemicals, but such these bidder's have no any authority letter, price list or contract agreement from the principal of foreign mission from which items be imported for supply and sale in open market, and will affect the fixing/developing of FujiFilm image and being different materials, so bid of M/S Fuji Film Pakistan is considered. Whereas M/S Fuji Film Pakistan is the directly importer of Fuji Film Japan. The firm is world wide well reputable multinational and continuously providing X-Ray Films' chemicals to government institutions through out country since long time and also are already in use of Health institutions of this District from last many years.

Justification: Regarding for the purchase of X-Ray films and chemicals. Only one bid of M/S Fuji Film Pakistan Limited has quoted complete range as per tender specification, where as M/S Paras Enterprises Karachi and AHA Enterprises Sukkur have quoted four developer chemicals, but such these bidder's have no any authority letter, price list or contract agreement from the principal of foreign mission from which items be imported for supply and sale in open market, and will affect the fixing/developing of Fuji film image and being different materials, so bid of M/S Fuji film Pakistan is considered. Whereas M/S Fuji Film Pakistan is the directly importer of Fuji Film Japan. The firm is world wide well reputed, multinational and continuously providing X-Ray films chemicals to government institutions through out country since long time and also are already in use of health institutions of this District from last many years.
