1	<b>-25 °C Laboratory Freezers (ESCOS/Panasonic)</b> Superior forced air design instead of regular cold wall for freezer Rapid cool-down and very fast recovery due to fan assistance Fast temperature equilibration, superior sample protection Intelligent Automatic defrost for additional sample protection High performance unit uses intelligent defrost to maximize sample protection Computer has thermocouple on the evaporator Detects ice formation Defrosts only when needed to keep units at optimum performance Keeps chamber temperature within safe limits Other features including: Door lock, which provides additional security for expensive samples and reagents from unauthorized users Solid door Esco ISOCIDE external surfaces, to eliminate 99.9% of surface bacteria within 24 hours of exposure and ensure environment friendly High quality stainless steel interior for sample protection Internal LED lighting save up 70% power with less heat exposure than fluorescent or incandescent lighting standard wheel/casters for easy location or movement or any other brand with equivalent specification	N.Q	Rs.374,400/- -BDF- 25V265 Biobase China	Rs.731,250/- CV-6 FRIMED Fri,Med Srl Italy	N.Q	Rs.415,000/- -BFRZ-25- 201 Biolab scientific Canada	Rs.508,750/- USA	N.Q	Rs.263,250/- BDF-25V270 Biobase China	N.Q	Rs.650,000/- UPLTF 275 Artico Denmark Rs.313,750/- Haier	<b>Best Accepted</b>
