MINUTES OF MEETING OF FINANCIAL BIDS (EVALUATION) OF CT  
SCANNER, MRI, DUODENOSCOPE, TELEPHONE EXCHANGE AND  
FURNITURE HELD ON 13-06-2015 AT 12.00 NOON.

The meeting started with the recitation of The Holy Quran on specified time. After welcome and introduction to the participants the Chairman Purchase Committee / Medical Superintendent GMMMC Hospital gave briefing about the previous and the present status of the Tender process. Tenders were invited for CT Scan, MRI System, Duodenoscope, Telephone Exchange and Furniture under ADP Scheme. Later, Prof. Dr Tariq Mehmood, Head of Radiology Department JPMC Karachi and the Chairman Technical Committee briefed about the Technical qualification and disqualification of the Bidders in the Tender process. List of participants and bidders are attached herewith. The details of the meetings are listed below.

Continued...on page 2

1. **MRI System.** It was briefed to the committee that no bidders could qualify for this equipment from MS Medequips S.M.C and MS S.K Enterprises. The sealed envelope was handed over to the bidder MS Medequips S.M.C Karachi. However, MS S.K Enterprises submitted application for withdrawal of bid therefore, the envelope was handover to the bidder. Receipt of the same was shown to all participants of the meeting. As no one could technically qualify for this machine/equipment, therefore, the committee unanimously decided to re-tender to purchase this equipment.
2. **CT Scan.** It was briefed to the committee that MS Medequips S.M.C and MS S.K Enterprises had participated for CT Scanner. MS Medequips S.M.C was declared Technically qualified for this equipment and therefore, his financial bid was opened before all the participants. The rates of equipment, parts, services, trainings and online redressal of technical issues for five years were evaluated, discussed and ensured by the committee. It was decided by the committee that the conversion rate will be applied in US\$ (Dollars) on CIF basis as per SPPRA Rules (photocopy attached) on the date of submission of bids period i.e. from 23<sup>rd</sup> of January. L.C will be opened by the bidder in the name of Medical Superintendent GMMMC Hospital Sukkur and all the expenses will be borne by the bidder/vendor. It will be ensured that the shipment will shipped from JAPAN. The rates were approved by the committee and it was unanimously recommended by the committee to award the contract.

MS S.K Enterprises submitted application for withdrawal of bid therefore, the envelope was handover to the bidder. Receipt of the same was shown to all participants of the meeting.

**3. Duodenoscope.** The committee was informed that MS Endocare, MS Allmed Sollutions and MS Mediland participated for this equipment. However, MS Allmed Solutions was given his sealed financial bid proposals. MS Endocare was contacted and agreed that he will collect his sealed envelope later. MS Mediland was declared Technically Successful. His financial bid was opened and his earnest money was found Rs 10,000/- short. Therefore, his bid was rejected and the committee unanimously decided to re-tender to purchase this equipment.

3. **Telephone Exchange.** Only one bidder participated for this equipment. The sealed financial envelope was shown to all participants and to MS Phonoengineers Lahore. Before, opening of financial bids one of the member ensured the quality of Exchange and its accessories. The bidder further ensured that they have already supplied many equipments in the country and Sukkur particularly in IBA, NAB Office and have also been awarded contract from German Donors for RBC Centre at GMMMC Hospital Sukkur. His financial bid was opened before all members and his rates were evaluated. The rates were approved by the committee and it was unanimously recommended by the committee to award the contract.

**Continued...on page 3**

4. **Furniture.** Only one bidder participated for the furniture. The sealed envelope was shown to all participants and to MS Pakistan Furniture Sukkur. The committee checked his proposals and scrutinized his particulars. The financial bid was opened and the rates were evaluated. The rates were approved by the committee and it was unanimously recommended by the committee to award the contract.

The committee unanimously recommended to issue acceptance / work orders to the successful bidders within specified time as per SPP Rule 2010.

The meeting ended with thanks to and from the Chair.

GMMMC HOSPITAL SUKKUR

MINUTES OF THE MEETING OF TECHNICAL COMMITTEE FOR GMMCHS TENDER FOR CT SCAN & MRI HELD ON 16TH APRIL 2015 AT KARACHI.

Meeting begins with recitation of holy Quran.

**Agenda -1:**

Complaint submitted by M/s SK enterprises on 11th April 2015 regarding Prof. Tariq Mahmood Chairman technical committee for GMMCHS tender for CT SCAN & MRI.

Prof. Tariq Mahmood stated that I would like to give a Para wise reply of this letter to all members:

As per SK enterprises letter Para4 regarding CT/MRI tender for civil hospital Sukkur he has mentioned that Prof. Tariq Mahmood as chairman technical committee favoring specific company out rightly and trying to purchase Chinese brand against specs due to reason best known to him?

- Since, Committee has not yet selected any equipment; bidder is making an absolutely false allegation with mala fide intention to misguide every one.
- Technical committee is fully authorized to decide and decision will be made on the basis of majority as per tender requirement.

This Bidder has attached three papers of the tender document for information on which he has highlighted two things

- FIELD STRENGTH - 0.30 TESLA OR MORE
- COUNTRY OF ORIGIN SHOULD BE USA/EUROPE/JAPAN

Committee will not violate these two or any other condition of the tender document including conditions mentioned on the same page in bold and capital.

- THE BIDDER MUST HAVE SOLD OUT EQUIPMENT IN SINDH / PAKISTAN.
- INDICATE THE NUMBER OF MRI SCANNERS INSTALLED WITHIN PAKISTAN.
- LETTER OF SATISFACTION FROM AT LEAST THREE HOSPITALS.

Since the bidder has also mentioned about another tender in Para 5 that is regarding rehabilitation of DHQ / THQ tender and he has mentioned that Prof. Tariq Mahmood is favoring two specific companies in the tender invited for rehabilitation of DHQ/THQ hospitals in which he is a member of technical committee.

- Prof. Tariq Mahmood stated that I would also like to share this with committee members that in the said tender I am one of the technical members, not the chairman, but just for your members information, **five companies** are technically qualified for radiology equipment, as per tender requirements not two companies.

Bidder M/s SK Enterprises could not technically qualify due to the below mentioned terms and conditions of the tender:

Bidder M/s SK Enterprises could not technically qualify due to the below mentioned terms and conditions of the tender:

- To import and sell any radiation equipment like x-ray machines, fluoroscopy, CT scanner in Pakistan it is mandatory to be registered with Pakistan Nuclear Regulatory Authority (PNRA) and this bidder M/s SK Enterprises was not registered with PNRA on the closing date that was 5<sup>th</sup> December 2014 and this was the KNOCK OUT CLAUSE (serial number 9 page 4/25) can be verified from the bid document.  
(Bidder has submitted a copy of PNRA certificate along with his complaint which clearly shows that the bidder was not registered on the closing date and even the application for PNRA certification was made on 12<sup>th</sup> February 2015.
- As per tender terms and conditions no 3.6, bidder M/s SK Enterprises did not submit the Sole agent certificate for the quoted items from the Manufacturer for the bidder valid for three years from the date of issue was not provided.
- As per tender terms and conditions no 3.7, bidder M/s SK Enterprises did not submit the proof of past import of quoted items from Manufacturer by submitting copy of bill of entry (custom clearance documents), bill of landing / Air way bill and etc. along with their bid.
- As per tender terms and conditions no 3.10, bidder M/s SK Enterprises did not submit the List of hospitals, name of department, contact numbers of the end users in which the quoted equipment are working was must to be attached. Copy of previous installation report in a reputed Govt. /Private Teaching hospitals/repair certificate if any of the similar quoted items from the end user should be attached along with the bid.
- As per tender terms and conditions no 3.26, bidder M/s SK Enterprises did not submit a detailed technical quotation on their letter head mentioning the technical details of the quoted model as per tender specifications.
- The List of hospitals, name of department, contact numbers of the end users in which the quoted equipment are working was must to be attached. Copy of previous installation report in a reputed Govt. /Private Teaching hospitals/repair certificate if any of the similar quoted items from the end user should be attached along with the bid.

**In the last Para he requested to honorable Minister to intervene in this matter to save the government exchequer and in the best interest of institution and poor?**

- Regarding this Para I would request all the member to visit my department and witness the equipment and buildings arranged by me through donations worth over Rupees 700 million including two CT scanners, one MRI, 28 ultrasound units, five x-rays, Cram, Mammography etc. and Cyberknife robotic radiosurgery for treatment of cancer providing absolutely free facility for the sake of poor, development of institution and this I believe is self explanatory of saving the government exchequer.
- To prove his sincerity for the government exchequer, institution and the poor, SK Enterprises should consider donation of CT & MRI which would cost them less than Rupees 90 million and it will not only serve the poor patients but also get them local installed base reference and letter of satisfaction from one hospital.

Here I would also like to record that Mr. Shargeel Anzar is the same person who got the purchase order of same equipment CT and MRI for Sukkur Hospital costing Rs. 130 Millions on 26<sup>th</sup> April 2013 as representative M/S Shirazi trading as Bidder of General Electric USA. Total sum of Rs. 130 Millions were transferred to the account of M/S Shirazi against Bank guarantee. M/s Shirazi was supposed to complete installation within four months but the Bidder didn't install nor even imported

NG  
lition  
CT/C  
256  
- 2  
315  
75  
CAL  
VIC

ne equipment in six months. Therefore M/s Shirazi was black listed and rupees 130 million was returned to M/S Civil Hospital Sukkur. As a bidder Mr. Shargeel has already proven his inefficiency. As the M/S Shirazi has been black listed Mr. Shargeel is coming with a new company representing M/s SK enterprises (Hitachi)

This technical committee was formed by the MOH in 2013 for this tender. We prepared a technical specifications but procurement committee of GMMCHS did not consult at any stage. SPPRA rules were violated therefore two Medical Superintendents of the civil hospital Sukkur were suspended in the same purchase, one due to speedy technical qualification of tender and violation of SPPRA rules and other one due to handing over of a cheque of Rupees 130 millions without installation of CT and MRI equipment.

To sum up here he said that SK enterprises is trying to confuse us by quoting name of Hitachi which is a manufacturer, whereas we are dealing with SK enterprises a local bidder, this bidder has not installed so far a single CT scanner or MRI or Fluoroscopy or even an x-ray machine in public or private sector.

Government of Sindh has already suffered in the hands of bidders in purchase of four MRI scanners few years ago when Raditech was representing General Electric and only one MRI out of four is operational.

Therefore SK Enterprises letter is just to pressurize the committee without any valid justification. This bidder has not installed a single unit of CT scanner or MRI or x-ray or fluoroscopy of Hitachi or any other manufacturer.

#### Agenda -2:

#### FINALIZATION OF TECHNICAL EVALUATION OF CT SCANNER & MRI FOR GMMCHS.

Two bidders participated in the tender for both CT Scanner and MRI i.e. M/S Medequips and M/s SK Enterprises.

At first members discussed in detail about the technical comparison of the bidders for CT scan and it was unanimously decided that M/s Medequips Toshiba (Japan) meets technical specification as mentioned in the tender document and having the largest installation base in Sindh and other parts of the Pakistan. It's after sales service of the supplied CT Scanner are up to the satisfaction of the technical members therefore declared the bid of M/s Medequips as technically responsive.

M/s SK enterprises bids found nonresponsive due to the reason that M/s SK Enterprises has no experience of selling and maintaining a CT scanner in any part of the country including the province of Sindh where a mandatory requirement of the tender was to provide at least three letter of satisfaction from three end users / hospitals.

For second item MRI scanner it was also unanimously decided that M/s Medequips and M/s SK enterprises bids are unresponsive due to the reason that the quoted M/S Medequips is from the country of origin China and M/s SK Enterprises has no experience of selling and maintaining a MRI scanner in any part of the country including the province of Sindh where a mandatory requirement of the tender was to provide at least letter of satisfaction from three end users / hospitals.

Further it is suggest that the financial opening of the responsive bid of (M/s Medequips) should be called at the earliest. The non responsive bids should be returned unopened to the respective bidders.

For the purchase of MRI scanner a new committee may be constituted by the competent authority.

The Pre Bid Meeting regarding Technical Specification of procurement of Machinery / Equipment (CT Scan & MRI) started with the recitation of the Holy Quran. The Chairman of Technical Committee Prof. Tariq Mahmood, briefed about process. Later, other participants along with the undersigned discussed in detail about the working and suitability of each machine to be installed at GMMMC Hospital Sukkur in the light of their vast experience. The bidders who had purchased the Tender / Bid Documents also participated in the meeting. All bidders / vendors were provided the opportunity to present their point of view. The salient features of the meeting are as follows.

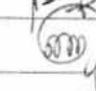

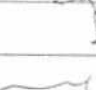

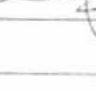

1. The representative of S.K Enterprises vendor of Hitachi raised the point of 10% performance security for 10 years. Chairman and members of the Technical Committee discussed in detail and also consulted the SPPRA rules and it was unanimously decided that it should be reduced to 08%.
2. The representative of Shirazi Trading the vendor of GE who had no observation on the specification and NIT.
3. The representative of Medequips Ltd the vendor of Neusoft MRI /Toshiba CT raised two points.
  - i. 0.3 Tesla should be replaced with 0.35 Tesla because it is specific for one vendor which he has also mentioned in his observations submitted earlier.
  - ii. Optional Coil for breast investigation should be included in the standard specifications. Keeping view the available funds both points were not approved by the committee.
4. The representative of Siemens Pakistan raised the point that due to Easter and Christmas Holidays and site visit of by technical expert's tender submission is not possible owing to Headquarter of company based in Germany. Therefore wanted extension of tender submission date. The point was discussed and unanimously agreed that it should accepted and extended.
5. The representative of Medical Equipments the vendor of Mindray also raised the issue of 0.3 T and the extension of date. Extension of tender submission date was accepted.
6. The representative of QFR had same observation of 0.3 T also and the extension of date. Extension of tender submission date was accepted
7. The representative of Allmed Solutions the vendor of Neusoft CT raised the point regarding country of origin which was discussed in detail and Technical committee reiterated its earlier recommendations.

**MINUTES OF THE 2<sup>nd</sup> MEETING REGARDING THE TECHNICAL SPECIFICATION OF CT SCAN & MRI TO BE PURCHASED AT GMMMC HOSPITAL SUKKUR, HELD ON 06-08-2014 AT JPMCH KARACHI.**

The second Meeting regarding procurement of Machinery / Equipment (CT Scan & MRI) started with the recitation of the Holy Quran. The Chairman of Technical Committee Prof. Tariq Mehmood, briefed about Radiology Department and the successful working of already installed CT Scan and MRI machines at JPMCH Karachi. Later, other participants along with the undersigned discussed in detail about the working and suitability of each machine to be installed at GMMMC Hospital Sukkur in the light of their vast experience. The salient features of the meeting are as follows.

**CT SCAN MACHINE**

1. Prof. Tariq Mehmood, the Chairman of Technical Committee described in detail the working and nature of two CT SCAN machine installed at JPMCH. He mentioned about the working and nature of CT SCANNERS used nowadays in Pakistan and in the world. In the light of his experience he stated that the 16 slices CT SCANNER would suitable with the running cost at initial level keeping in view the training of staff and other facilities.
2. All the members discussed about the tube of CT Scanner machine bearing storage capacity of 3.5 MHU which is the best with respect to CT SCAN machine in any type of environment and condition specially of Sukkur.
3. For the sake of ensuring right and quality machine to be purchased for GMMMC Hospital, it was discussed that the bidders must provide the list of CT SCAN machines installed in Pakistan along with letters of satisfaction of any three hospitals.
4. It was also discussed that the Gantry bore of CT SCAN should at least of 70 cm with the tube valve of 3.5 MHU. Whereas the generator should be of 40 kv. Sacn length should be at least 1-5 meters with weight bearing capacity of 80 kg or more. Operating system must be based on latest capacity 100 GB of space or more.
5. After detailed deliberation it was observed that the CT Scanners already installed in other public sector hospitals were not functioning. In the light of this it was suggested that the warranty should be at least of 5 years starting from date of full functional commissioning including CT SCAN TUBES (unlimited exposures in five years), maintenance of all the equipment. It was also added that for the sake of complete acquaintance with machinery / equipment, there should be

two weeks training from abroad of Radiologist from a reputable centre and Technologists training by an application specialist for two weeks at site. The extra civil work must be borne by the vendor. The equipment / machinery should be handed over to GMMMC Hospital on turnkey basis.

6. It was also discussed that the specification of CT SCAN machine should be general and unbiased so that as many as vendors could participate in the bid process.
7. Country of origin should be USA, EUROPE AND JAPAN with respect to standard model ( CE ) compliance/NHLV/ JAPAN/FDA 510 KV should be based on equipment is from other FDA 510 KV approved is mandatory.

### **MRI MACHINE**

1. Prof. Tariq Mehmood described about the working of MRI machines installed at JPMCH. He also discussed about the working and nature of MRI machines installed and successfully used nowadays in Pakistan and in the world. In the light of his experience he stated that the in spite of 1.5 Tesla 0.35 Tesla or more machine would be suitable considering the smooth running and maintenance at GMMMC Hospital Sukkur.
2. It was discussed in detail that 1.5 Tesla machine is not feasible because the helium is very costly which is not available in plenty and is rare due to use in Rocket Technology. Due to any reason, the temperature cannot be maintained and the rough cost is about one crore to get start. Therefore, round the clock temperature maintenance is mandatory. Due to above reason , MRI machine of 0.35 Tesla is feasible and the model must be latest and successful having large installation around the world. It was concluded that the higher level of Tesla such as 1.5 Tesla is costly to maintain which is liable to stop working and once it is stopped after the helium is consumed it is supposed to be dead and about two crore cost is needed to make it working again.
3. It was discussed that the magnetic diameter should be of 3 slides and the company should provide the plan and estimate of daily running cost of the machine up to five years.
4. Later, it was discussed that the bidders should be either direct manufacturers or company of authorized dealer. Third party would not be allowed.
5. After detailed deliberation it was suggested that the warranty should be at least of 5 years including of the whole MRI Machines, its maintenance of all the equipment and 10 years service warranty is necessary to be provided.
6. So, after detailed deliberation it was also suggested that the company should provide the names and qualification of trained engineers and ancillary staff. It was also added that the foreign

training of the concerned Radiologist is necessary to provided by company which all the companies offer in order to run, maintain, manage and operate the MRI Machine.

7. After detailed deliberation it was observed that the MRI Machines already installed in other public sector hospitals were not functioning. In the light of this it was suggested that the warranty should be at least of 5 years starting from date of full functional commissioning including of MRI Machine, maintenance of all the equipment. It was also added that for the sake of complete acquaintance with the equipment, there should be two weeks training from abroad of Radiologist from a reputable centre and Technologists training by an application specialist for two weeks at site. The extra civil work must be borne by the vendor. The equipment / machinery should be handed over to GMMMC Hospital on turnkey basis.
8. Country of origin should be USA, EUROPE AND JAPAN with respect to standard model (CE) compliance/NHLV/ JAPAN/FDA should be based and the equipments from other FDA approved company is mandatory.

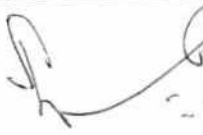

The meeting ended with thanks to and fro of the participants.
