No.DVR/MR(61)/Smart Cards/2017-18/

Karachi, dated the JAN ,2018

**SUBJECT: MINUTES OF MEETING OF PROCUREMENT COMMITTEE FOR OPENING OF FINANCIAL OF BIDS OF SECURITY FEATURED MVR CARDS FOR EXCISE TAXATION & NARCOTICS CONTROL DEPARTMENT HELD ON 16-01-2018 AT 02:00 PM.**

The meeting of the Procurement Committee for opening of financials and evaluation of bids for Security Featured Smart MVR Cards and card readers held on **16-01-2018 at 02:00 pm** under the chairmanship of Director (Admn/MVR) Excise, Taxation & Narcotics Control Karachi in the Directorate (Admn/MVR), Excise, Taxation & Narcotics Control Karachi. Following members of the committee attended the meeting:

Mr. Waheed Shaikh	Deputy Secretary (Admn) M R Wing Karachi.	Secretary/ Member
Mr. Sumair Murad Shah	VC Engineer Information Technology Deptt	Member
Mr. Musarrat Mokhtar	Deputy Director Industries & Commerce Deptt	Member
Mr. Mehash Lal Dodani	Deputy Secretary ET&NC Department	Member

2 The meeting started with recitation of Holy Quran. The chair welcomed the participants and informed that following 15 firms/bidders purchased the bidding documents:

1. M/s Kestral Trading
2. M/s SBF Card Solutions
3. M/s Progressive Engineering Associates
4. M/s Inbox Business Technologies Pvt Ltd
5. M/s S I Global
6. M/s Data Communications & Control (Pvt) Ltd
7. M/s Pakistan security Printing Corporation
8. M/s Accountancy Outsourcing Services
9. M/s GCS
10. M/s NADRA
11. M/s Smart card Integrator Ltd
12. M/s Burki Technologies
13. M/s Safran
14. M/s Muhlbauer
15. M/s Mariyaha Printers.

3 The following two (02) firms/companies participated in bidding process and submitted their documents.

- I. M/s Inbox Business Technologies Pvt Ltd
- II. M/s Accountancy Outsourcing Services

4 The chair further informed that the Technical Committee has scrutinized both the technical proposals submitted by the above firms/bidders. The evaluation report of Technical Committee for evaluation of technical proposals of the firms was submitted vide No. DD/ADMN/SMART CARDS/2017-18/362 dated 12-01-2018 along with enclosures. **(copy annexed at A)**

5. The report of the technical committee was opened and placed before the forum and also read before the members of procurement committee and representatives of the firms/ bidders.

6. Accordingly the procurement committee discussed thoroughly the technical evaluation report submitted by the technical committee after securitizing of the relevant documents and evaluation criteria laid down in bidding documents.

7. As per evaluation report of the Technical Committee the following firms/bidders obtained marks as per laid down criteria in RFP as under:

i.	M/s Inbox Business Technologies Pvt Ltd	90/100
ii	M/s Accountancy Outsourcing Services	75/100

8. The representatives of M/s Inbox Technologies and M/s Accountancy Outsourcing Services were given opportunity to present their point of view if any regarding technical evaluation of their firms. The representatives of the above firms/bidders agreed with the technical evaluation report.

9. It was decided by the procurement committee that envelopes marked as financial proposals of M/s Inbox Business Technologies (Pvt) Ltd and M/s Accountancy Outsourcing Services, the firms/bidders who qualified in technical process may be opened in presence of the procurement committee and representatives of the firms/bidders.

10. Accordingly the envelopes marked as financial proposals and envelopes containing Bid Security were opened and signed by all the members of the procurement committee. The rate quoted for Security Featured MVR Smart card and Smart card Readers with complete solution including installation and software (One time supply) were also readout before the procurement committee. Comparative statement is enclosed at **annexed-1**.

11. After evaluation of financial proposals the procurement committee unanimously recommended **M/s Inbox Business Technologies Pvt Ltd** on the basis of the technical evaluation report, comparative statement and the 1<sup>st</sup> lowest bidder for further process as per SPPRA Rules 2010 (amended 2017) and approval of the competent authority, bid evaluation report in specified format is enclosed at **annexed-2**

The meeting ended with the vote of thanks to and from the chair.

In continuation 2<sup>nd</sup> meeting of Technical Sub-Committee was convened on **21-11-2017** in the Directorate (Admn/MVR) Karachi at **04.00 pm** vide letter No.DD/ADMN /ESTT/MR/8387 dated. 16<sup>th</sup> Nov. 2017 (attendance sheet Annexed at D).

The meeting started with the recitation of Holy Quran. The issue of confirmatory test of samples of Security Featured Smart MVR Cards provided by the bidders was discussed at length. Further as per RFP samples of Security features MVR Smart Cards are to be quality tested from PSQCA or any accredited body local or abroad.

In this connection a letter was sent to PSQCA by the Chairman of the Procurement Committee vide letter No. DVR/MR(61)/2017/SMART CARDS/1954 dated. 13<sup>th</sup> Sep. 2017 (copy **annexed at E**) for confirmatory assessment / testing report of Security Featured Smart MVR Cards samples as per specification mentioned in the RFP being the National Standard Body and product Confirmatory Assessment Organization of Pakistan for the purpose.

In response PSQCA vide No.6(46)/PSQCA/HQ/2017/866 Dated. 12.10.2017 regretted that presently PSQCA does not have a testing facility of Smart Cards. (**annexed at F**)

As PSQCA has already regretted for confirmatory testing report of Security Featured Smart Cards. The Committee unanimously decided to search from Internet for any accredited firm local or abroad for confirmatory test of the samples provided by the bidders as per specifications mentioned in the RFP.

In this regard two firms were searched namely **Gsight International** having office at 8/F. No. 1 Gate B, Friendship Building, Friendship Road Hexi District, Tianjin,300061, China and **United Registrars of Systems Pakistan** D-6/A Block 9 Islamic Chamber street Kehkashan, Clifton Karachi, Sindh, Pakistan.

The Technical Sub-Committee decided that Chairman of the Sub-Committee would send an e-mail to both the above mentioned firms to verify that these firms are capable of confirmatory assessment / testing report of Security Featured Smart MVR Cards samples provided by the bidders as per specifications mentioned in RFP.

As decided in the meeting email was sent to M/s Gsight International Private Limited office at 8/F. No. 1 Gate B, Friendship Building, Friendship Road Hexi District, Tianjin,300061, China on their Email ID [guyishun@gsight.com](mailto:guyishun@gsight.com) on 23-11-2017 and copy endorsed to the committee members as well. (copy of the email annexed at G).

Similarly as decided email also send to United Registrars of Systems Pakistan D-6/A Block 9 Islamic Chamber Street Kehkashan, Clifton Karachi, Sindh, Pakistan, on their Email ID [ceo@urs-inspection.com](mailto:ceo@urs-inspection.com) on 23-11-2017 for the purpose and copy endorsed to the committee members as well. (copy of the email annexed at H),

A reply of the e-mail sent to **M/S Gsight International Private Limited** was received on **24-11-2017** (copy endorsed to all members of the sub-committee) in which certain queries were made by the firm and the firm confirmed that they have world class laboratory for testing of all types of smart cards. (Copy of the email annexed at I)

In response to the above mentioned reply of email dated **24-12-2017** from **M/S Gsight International Private Limited** an email was sent on **30.11.2017** mentioning testing of all features of Security Featured Smart MVR Cards including chip specification were sent and it was also asked from the firm for testing of Smart Card readers samples provided by bidders to be tested as per provided specifications mentioned in RFP. Further the charges for all the test reports were also enquired so that the participating firms/ bidders may be informed accordingly and copy endorsed to the committee members as well. (Copy of the email annexed at J)

Again in response **M/S Gsight International Private Limited** replied that they have carefully evaluated the specifications and they are pleased to quote their most competitive offer (quotation of testing also enclosed in the email) and committed to provide the best in class service and ensured to provide professional results for testing. (Copy of the email annexed at K) 

In continuation 3<sup>rd</sup> meeting of the Technical Sub-Committee was conveyed vide this office letter No.DD/ADMN/ESTT/MR/8831 dated. 5<sup>th</sup> Dec 2017, (copy Annexed at L) scheduled on 06-12-2017 at 03:00 pm in the Directorate (Admn/MVR), Karachi (copy of attendance sheet annexed at M) to discuss the accreditation of the firm from any recognized body and the committee unanimously decided to send an email to **M/S Gsight International Private Limited** to provide accreditation along with the copy of valid accreditation certification. The Technical sub-Committee further decided that after receiving the reply of the firm along with valid copy of accreditation certificate the bidders i.e **M/S Inbox Technologies Limited** and **M/S Accountancy Outsource Services (AOS)** may be requested for depositing the amount quoted by the **M/S Gsight International Private Limited** for confirmatory assessment / testing report of Security Featured Smart Cards and the smart card readers for the samples provided by them.

As decided in the 3<sup>rd</sup> meeting of Technical Sub-Committee an email was sent to **M/S Gsight International Private Limited** on 07-12-2017 to intimate whether the firm is accredited from any recognized body and provide the accreditation along with copy of valid accreditation certification. (Copy of the email annexed at N).

In continuation 4<sup>th</sup> meeting of Technical Sub-Committee was convened vide this office letter No. DD/ADMN/MRW/ESTT:/8947 dated 08-12-2017 scheduled on 11-12-2017 at 01:00 pm at Directorate (ADMN/MVR), barrack No. 11, Block 4-A Sindh Secretariat, Karachi copy of attendance sheet (copy Annexed at O). The committee was apprised by the chairman Technical Sub-Committee that email earlier sent to **M/s United Registrars of Systems Pakistan** for confirmatory assessment / testing report of Security Featured Smart Cards and the smart card readers, a reply was received on 08-12-2017 (Copy enclosed at **annexed-P**) from the above mentioned firm along with the quotation / cost of testing fee of Smart Cards and the readers in the above mentioned email. As above mentioned firm requested for two (02) separate payorders i.e 30% of the total cost of the test in advance and the remaining 70% at the time of furnishing the testing report of samples of security featured smart cards and their readers.

It was unanimously decided in the meeting that **M/s United Registrars of Systems Pakistan** may also be asked for accreditation certificate from any recognized body along with the copy of accreditation certificate as this stage **M/S Gsight International Private Limited** has already been asked to provide the same. It was further decided in the meeting by the members of the Technical Sub-Committee that whichever firm replies earlier along with the accreditation certificate, the bidders / participating firms may be requested to furnish the required payment in shape of payorders in favour of one of the above mentioned firms so that the samples of the Smart Cards and the readers provided by the bidders may be sent to the testing firm for confirmatory assessment / testing report of Security Featured Smart Cards and smart card readers along with the payorders.

The committee further decided to have the presentation from both the participating firms as per requirement of the RFP vide clause No. 5.24.3.3 of the bidding document to proceed further.

As decided in the 4<sup>th</sup> meeting of the Technical Sub-Committee an email was sent to **M/s United Registrars of Systems Pakistan** for providing accreditation certificate from any recognized body and along with the copy of accreditation certificate. In reply **M/s United Registrars of Systems Pakistan** furnished the accreditation certificate (Copy enclosed at **annexed-Q1-Q2-Q3 & Q4**).

As further decided regarding having presentation from both the participating firms / bidders i.e **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** a letter was sent vide this office No. DD/ADMN/MR/SMART CARDS/8992 & 8993 dated 12-12-2017 (Copy enclosed at **annexed-R1 & R-2**), for giving their presentation as required in the bidding document scheduled on 19-12-2017. Further the participating firms/bidders were requested vide this office No. DD/ADMN/MR/SMART CARDS/8977 & 8978 dated 12-12-2017 (Copy enclosed at **annexed-S1 & S-2**) to furnish the payment in the shape of payorders as demanded by the testing firm for two (02) separate payorders i.e 30% and 70% of the total cost.

As the payorders were received from both the participating firms the same were sent to **M/s United Registrars of Systems Pakistan** along with one set of samples of smart cards and their readers provided by both the firms vide No. DD/ADMN/MR/SMART CARDS/9084 dated 15-12-2017 for confirmatory assessment / testing report of Security Featured Smart Cards and their readers.

As scheduled both the firms / bidders carried out their presentation in presence of all the members of the Procurement Committee and the high ups of the Department covering all the aspects as mentioned in evaluation criteria vide clause No. 5.24.3.3 of the bidding document. After the presentation the members of the Technical Sub-Committee decided to visit the manufacturing unit of both the firms.

An email was received from **M/s United Registrars of Systems Pakistan** requesting to provide another three (03) sets of samples of smart cards of both the participating firms to proceed further (Copy

enclosed at **Annexed-T**). In this regard three (03) sets of Samples of Smart Cards both the firms were sent vide this office No.DD/ADMN/MR/SMART CARDS/9135 dated 21-12-2017 to proceed further.(Copy enclosed at **annexed-U**).

Further letters were sent to both the firms i.e **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** regarding visit of their manufacturing facility of both the firms scheduled on **27-12-2017** vide No. DD/ADMN/MR/SMART CARDS/9169 & 9170 dated 21-12-2017 (Copy enclosed at **annexed-V1 & V2**).

The Technical Sub-Committee i.e Mr. Waheed Shaikh, Mr. Mehash Lal Dodani and Mr. Sumair Murad Shah visited the manufacturing unit on scheduled date and time situated at Factory No. 208, main Defence Road / Ali Akbar Road off 3.0 KM. Raiwind Road Lahore and held meeting with Mr. Mazhar Hussain CEO M/s Kamera Kraft along with the representative of the concerned firms. (Copies of attendance sheets enclosed at **annexed-W1 & W2** ). The manufacturing plant/unit had complete card manufacturing facility which was witnessed and observed the manufacturing process of plain cards, magnetic stripe cards, RFID cards, smart cards with security features etc, offset UV machines specifically for plastic printing, Card Designing Department with punching and hot stamping machines in the factory premises.(photographs **annexed at X**)

The Technical Sub-Committee decided to clarify from M/s Kamera Kraft to verify the genuineness of consent letters submitted by the bidders, as both the participating firms/bidders have the same manufacturer/principal. The chairman of the Technical Sub-Committee sent letters to M/s Kamera Kraft for verification of consent letters of **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** vide No.DDA/ESTT/MR/9302 & 9303 dated 29-12-2017 (Copy enclosed at **annexed-Y1 & Y2**). The replies were received from M/s Kamera Kraft confirming the authorization to participate in the said bid and the same is genuine in favour of both the participating firms i.e **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** vide No. KKDCN/2018/1/005 and 006 dated 04-01-2017(Copy enclosed at **annexed-Z1 & Z2**).

In this connection 5<sup>th</sup> meeting of Technical Sub-Committee was convened vide letter No. DD/ADMN/MRW/ESTT/302 dated 11-01-2018 held on 12-01-2018 at 12:00 noon in the Directorate (Admn/MVR), Excise, Taxation & Narcotics Control Barrack No.11, Block 4-A, Sindh Secretariat Karachi. (Copy enclosed at **annexed-AA**). The members of the Technical Sub-Committee were apprised that the final test reports from **M/s United Registrars of Systems Pakistan** for the security featured smart cards provided by **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** have been received on 11-01-2018 vide No. URS/GEN/001/2018 dated 11-01-2017 along with confirmatory reports No.URS/INS/GOS/001 and No. URS/INS/GOS/002. As samples of the both the participating firms have been technically approved by the testing firm. (Copy enclosed at **annexed-AB & AC**).The firm has also requested to arrange the remaining 70% balance payment amounting to Rs. 616,980/- from **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** (copy of attendance sheet **annexed at AD**).

As the firms have already provided the payorders of the balance 70% payment for sample testing so the payorders are being sent vide No DD/ADMN/MRW/ESTT/359 dated 12-01-2018.

The Technical Sub-Committee technically evaluated both the participating bidders i.e **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** which are apprehended below.

**Technical Evaluation on Security Featured Smart MVR Card  
Technical (Quality, Human Resource Professional, Backup Support)**

**(Max Points 60)**

<b>PRESENTATION BY BIDDERS BEFORE THE EVALUATION COMMITTEE (Max 20 Points)</b>			<b>10</b>	<b>10</b>
<b>Total Marks</b>			<b><u>90</u></b>	<b><u>75</u></b>

**Recommendations:**

Firm must get 70% i.e 70/100 marks in technical proposal for qualifying as per above mentioned criteria. As both the participating firms i.e **M/s Inbox Technologies Limited** and **M/s Accountancy Outsource Services (AOS)** have submitted all the required documents mentioned in RFP. As per technical evaluation report **M/s Inbox Technologies Limited** has secured **90/100** marks and **M/s Accountancy Outsource Services (AOS)** secured **75/100** marks.

Accordingly in view of the Technical Evaluation report, both the firms are qualified as per evaluation criteria, hence recommended for participation in the further process i.e opening of Financial Proposals as per SPPRA Rules 2010 (amended 2017).

Subject:

**CONFORMITY ASSESSMENT /TESTING REPORT OF SECURITY  
 FEATURED SMART CARDS BEING PROCURED FOR EXCISE, TAXATION &  
 NARCOTICS CONTROL DEPARTMENT**

Please refer to this department's advertisement published in daily newspapers dated 05-07-2017 and 06-07-2017 for subject procurement copy enclosed at **Annexure-A**. The bidding firms who will successfully meet the technical evaluation in the eligibility criteria will qualify for financial evaluation. For technical qualification of a bid, product quality test report of provided samples of smart cards as per specifications of the bidding document is *required* from PSQCA being the National Standard Body and Product Conformity Assessment Organization of Pakistan for the purpose. Copy of specifications is enclosed at **Annexure-B**.

In view of the above, it is requested that this office may please be intimated whether the samples of Smart Cards provided by the participating bidders can be tested and their conformity assessment may be reported as per enclosed specifications or otherwise.

An early response in the matter will be highly appreciated.

REGISTRATION OF SECURITY FEATURED SMART CARDS

I hope this find you in good health.

As informed that Excise, Taxation & Narcotics Control Department Government of Punjab, (Pakistan) is introducing Vehicle Registration Security Featured Smart Cards in place of Registration Books. And as per requirement of the tendering process, sample of Security Featured Smart Registration cards provided by the bidder is to be tested for its conformity as per specifications.

It has now been learnt that your firm namely Gsight International Limited located at Plot No. 1 Gate B, Friendship Building, Friendship Road, Hexi District, Tianjin 300007 China has the capability of conformity testing of such smart cards under provided specifications appended hereunder:

**Technical specification of security featured smart card**

**Technical Specifications:**

- Card Material: PET with PVC Surface Finish for Laser engraving Printing
- Card Size: 85.54mm x 0.80 mm (ISO 7810 Standard ID-1)

- Pre-printed Cards with Security Features
- Card Life 5-7 Years
- The production systems supplied to print

Cards must at least follow and support the below specifications.

- Design Both Sides Printing 6-8 Colors
- Printing on Each side of The cards
- Variable printing 3600dpi or above

**Security Features required :**

- Metallic Effects
- Micro text

- Optical Variable Ink
- Latent / Ghost Image
- Thermochromics Ink Effect
- Guilloche Security
- UV Security Printing On the Both Side

Card

- Machine Readable Zone
- Contact Chip Data
- QR Code
- Holographic OVD Design hot stamped Hologram( Kinetic Animation/ Flip Image)

### **Smart Card Contact Chip Specifications:**

Chip Architecture:

- RISC based processing core
- DES co-processing block
- AES co-processing block complying to FIPS-197 supporting key lengths up to 256 bits
- Public key crypto co-processing block
- Common Criteria EAL 5+ certified for data protection
- Low power RNG compliant to AIS-31, FIPS 140-2
- Operating temperature of -25C to +85C
- Hardware UID for each chip

## Security Protection:

Against channel & fault attacks

Against reverse engineering

Security sensors for clock frequency, temperature, voltage supply and light

Active Shielding

## Chip Interface:

Universal chip interface module complying to ISO 7816-1

Full UART Supporting T=0 & T=1 with very high baud rate of up to 1000 kbaud

## Memory:

- Minimum 64K User memory
- 6 kbytes of dynamically allocated RAM
- Minimum 200 kbytes of ROM area for Operating System
- Minimum 100,000 read / write cycles
- Minimum 10 year data retention

## Operating System features:

- Loaded on ROM for faster performance
- Support file-system complying to ISO 9660 with Secure Messaging
- Support high speed personalization

- Support Multi-app using ISO 7816 file structure system
- Support reading of Chip Hardware Serial Number
- Support Security Environment at all the levels using File Control Parameters
- Support PIN-verification as well as Key authentication

**Smart Card Reader Specifications:**

- Windows Hardware Qualified List compliant reader
- Operating System Support: Windows XP, VISTA, Server 2008
- Support 32 as well as 64 bit Operating Systems
- Host Interface: USB 2.0 / CCID reader
- Host Interface speed: USD 12 MBps
- Insert / Remove Cycles: minimum 100,000 times
- Power Source: USB
- Security Certifications: FIPS 201
- Card Acceptor: Friction OR Landing

kbit/sec

- Card – Reader Communication: upto 500

optional

- Protocol: ISO 7816 T=0 & T=1, EMV

C

- Operating Voltage: ISO 7816 Class A, 15

& RoHS

- Safety and Environment: FCC Class B, 15

In this connection it is requested that this office may please be intimated whether the smart cards with the above appended specifications can be tested by your firm so that the samples provided by the bidders may be sent for quality testing and its compliance report. Charges for this testing report may also be conveyed to proceed further. Waiting for early response in the matter, please.

Regards

ALI HUSSAIN

CHAIRMAN

TECHNICAL SUB COMMITTEE

FOR SECURITY FEATURED SMART CARDS

OFFICE OF TAXATION & NARCOTICS CONTROL DEPARTMENT

GOVERNMENT OF SINDH

CARACHI PAKISTAN

this find you in good health.

It is informed that Excise, Taxation & Narcotics Control Department Government of Sindh, Karachi, (Pakistan) is introducing Vehicle Registration Security Featured Smart Cards in place of Registration Books. And as per requirement of the tendering process, the samples of Security Featured Smart Registration cards provided by the bidder are required to be tested for its conformity as per specifications.

It has now been learnt that your firm namely Gsight International Limited located at No. 1, Gate B, Friendship Building, Friendship Road, Hexi District, Tianjin 300000, China has the capability of conformity testing of such smart cards under provisions of specifications appended hereunder:

### Technical specification of security featured smart card

#### Smart Card Specifications:

Material: PC / PET with PVC Surface Finish for Laser engraving Printing

Size: 86mm x 54mm x 0.80 mm (ISO 7810 Standard ID-1)

#### Printing:

- Pre-printed Cards with Security Features
- Card Life 5-7 Years
- The production systems supplied to print Cards must at least follow and support the below specifications.
- Design Both Sides Printing 6-8 Color Printing Each side of The cards
- Variable printing 3600dpi or above

#### **Security Features required :**

- Metallic Effects
- Micro text
- Optical Variable Ink
- Latent / Ghost Image

- Thermochromics Ink Effect
- Guilloche Security
- UV Security Printing On the Both Sides of Card
- Machine Readable Zone
- Contact Chip Data
- QR Code
- Holographic OVD Design hot stamped Hologram( Kinetic Animation/ Flip Image)

### **Smart Card Contact Chip Specifications:**

#### Architecture:

- RISC based processing core
- DES co-processing block
- AES co-processing block complying to FIPS 197 supporting key lengths up to 256 bits
- Public key crypto co-processing block
- Common Criteria EAL 5+ certified for user data protection
- Low power RNG complaint to AIS-31 and FIPS 140-2
- Operating temperature of -25C to +85C
- Hardware UID for each chip

#### Security Protection:

Against channel & fault attacks

Against reverse engineering

Security sensors for clock frequency, temperature, voltage supply and light

Active Shielding

Chip Interface:

Chip contact chip interface module complying to ISO 7816-1

Supports UART Supporting T=0 & T=1 with very high baud rate of 1000000 bps.

Memory:

- Minimum 64K User memory
- 6 kbytes of dynamically allocated RAM
- Minimum 200 kbytes of ROM area for Operating System
- Minimum 100,000 read / write cycles
- Minimum 10 year data retention

Operating System features:

- Loaded on ROM for faster performance
- Support file-system complying to ISO 7816-3 with Secure Messaging
- Support high speed personalization
- Support Multi-app using ISO 7816 file structure system
- Support reading of Chip Hardware Serial Number
- Support Security Environment at all the levels using File Control Parameters
- Support PIN-verification as well as Key-authentication

**Smart Card Reader Specifications:**

- reader
- Windows Hardware Qualified List compliant
  - Operating System Support: Windows XP, VISTA, Server 2008
  - Support 32 as well as 64 bit Operating System
  - Host Interface: USB 2.0 / CCID reader
  - Host Interface speed: USD 12 MBps
  - Insert / Remove Cycles: minimum 100,000
  - Power Source: USB
  - Security Certifications: FIPS 201
  - Card Acceptor: Friction OR Landing
  - Card – Reader Communication: upto 500 kHz
  - Protocol: ISO 7816 T=0 & T=1, EMV optional
  - Operating Voltage: ISO 7816 Class A, B & C
  - Safety and Environment: FCC Class B, CE

Rollis

In connection it is requested that this office may please be intimated which of the bidders with the above appended specifications can be tested by your firm. The samples provided by the bidders may be sent for quality testing and its cost. The charges for this testing report may also be conveyed to proceed further. Hoping for early response in the matter, please.

 Subject: SPECIFICATIONS OF SECURITY FEATURED SMART CARDS

Dear Mr. Waheed,

I am happy to receive your email & would like to inform that we have a world class laboratory to test all types of smart card

Regarding the project you are discussing, we are happy to undertake this job & for that we can submit the report within 5-10 days of receiving the Cards depending on type of card

We would require below information beforehand from your side

- 1) What all features you would like us to test (Physical security features)
- 2) Please specify the material to test for Life (Tests would be conducted based on that)
  - a) For testing Chips, please let us know what all features you want to test in the Chip. Or you would like to validate a specific chip and ensure that its the same Chip
  - b) Would it be one set of cards by One Bidder or multiple bidder
  - c) If all the below specification needs to be tested, we can take it as reference point for testing & conduct the test as per this
  - d) Time frame, when would you be sending these cards as Chinese new year is approaching & our times work load before and after this time is generally high so for submitting report time would be defined as per that

Based on above answers we will have to define number of cards required (per bidder), Number of days for testing it & our quotation for the same

We appreciate to have your reply & we would ensure to give you a good test results

Kind Regards,

China

Please refer to your email dated 24.11.2017 regarding specifications of Security Featured Smart Cards and relating to your queries, it is to inform you that:

All features of Smart Cards including Chip specifications in the previous mail are to be tested copy of the same is again appended below:

**Technical specification of security featured smart card**

Smart Card Specifications:

Material: PC / PET with PVC Surface Finish for Laser engraving Printing

Size: 86mm x 54mm x 0.80 mm (ISO 7810 Standard ID-1)

Printing:

- Pre-printed Cards with Security Features
- Card Life 5-7 Years
- The production systems supplied to print Cards must at least follow and support the below specifications.
- Design Both Sides Printing 6-8 Color Printing on Each side of The cards
- Variable printing 3600dpi or above

**Security Features required :**

- Metallic Effects
- Micro text
- Optical Variable Ink
- Latent / Ghost Image
- Thermochromics Ink Effect

- Guilloche Security
- UV Security Printing On the Both Sides of Card
- Machine Readable Zone
- Contact Chip Data
- QR Code
- Holographic OVD Design hot stamped Hologram( Kinetic Animation/ Flip Image)

### **Smart Card Contact Chip Specifications:**

#### **Chip Architecture:**

- RISC based processing core
- DES co-processing block
- AES co-processing block complying to FIPS-197 supporting key lengths up to 256 bits
- Public key crypto co-processing block
- Common Criteria EAL 5+ certified for user data protection
- Low power RNG complaint to AIS-31 / FIPS 140-2
- Operating temperature of -25C to +85C
- Hardware UID for each chip [SEP]

#### **Security Protection:**

- Against channel & fault attacks [SEP]
- Against reverse engineering [SEP]
- Security sensors for clock frequency, temperature, voltage supply and light
- Active Shielding

### Chip Interface:

8-pin contact chip interface module complying to ISO 7816-1

ISO 7816 UART Supporting T=0 & T=1 with very high baud rate of upto 512 kbit/sec

### Memory:

- Minimum 64K User memory
- 6 kbytes of dynamically allocated RAM
- Minimum 200 kbytes of ROM area for Operating System
- Minimum 100,000 read / write cycles
- Minimum 10 year data retention

### Operating System features:

- Loaded on ROM for faster performance
- Support file-system complying to ISO 7816-4 with Secure Messaging
- Support high speed personalization
- Support Multi-app using ISO 7816 file structure system
- Support reading of Chip Hardware Serial Number
- Support Security Environment at all the levels using File Control Parameters
- Support PIN-verification as well as Key-authentication

ISO 7816 UART Supporting T=0 & T=1 with very high baud rate of upto 512 kbit/sec

### Memory:

- Minimum 64K User memory
- 6 kbytes of dynamically allocated RAM
- Minimum 200 kbytes of ROM area for Operating System

- Minimum 100,000 read / write cycles
- Minimum 10 year data retention

#### Operating System features:

- Loaded on ROM for faster performance
- Support file-system complying to ISO 7816-4 with Secure Messaging
- Support high speed personalization
- Support Multi-app using ISO 7816 file structure system
- Support reading of Chip Hardware Serial Number
- Support Security Environment at all the levels using File Control Parameters
- Support PIN-verification as well as Key-authentication

#### Smart Card Reader Specifications:

- Windows Hardware Qualified List compliant reader
- Operating System Support: Windows XP, 7, VISTA, Server 2008
- Support 32 as well as 64 bit Operating Systems
- Host Interface: USB 2.0 / CCID reader
- Host Interface speed: USD 12 MBps
- Insert / Remove Cycles: minimum 100,000 times
- Power Source: USB
- Security Certifications: FIPS 201
- Card Acceptor: Friction OR Landing
- Card – Reader Communication: upto 500 kbit/sec
- Protocol: ISO 7816 T=0 & T=1, EMV optional
- Operating Voltage: ISO 7816 Class A, B & C
- Safety and Environment: FCC Class B, CE & RoHS

There would be two sets of cards for confirmatory test of two different participating bidders/firms which will be sent for testing purpose;

Further, Smart Card Readers may also be tested which will be sent along with the samples of Security Featured Smart Cards as per provided specifications mentioned above and further the charges of all these tests reports may also be conveyed so that the participating firms/bidders may be informed accordingly.

**Subject:** RE: Smart Card Verification by International Third Party Firm - URS

Dear Mr. Shaikh,

Thank you for your response.

Our fees for the test is Rs. 750,000/- plus 13% SRB Tax, payable 30% in advance and balance 70% on submission of final test report. Travel charges will only be applicable if our experts (two) from Islamabad are required to visit Karachi to present the results, which is usually not required as the test report covers all the requirements.

URS is UK Head Quartered International Certification and Verification agency. We are an Independent Third Party that is accredited by a number of Accreditation Agencies. These are :

**UKAS (United Kingdom Accreditation Service)** recognises URS Certification to provide accredited certification of management systems according to ISO 9001, ISO 14001, OHSAS 18001, ISO 20000-1, ISO 22301, ISO 27001, ISO 22000, ISO 13485 and others. URS Holdings offers various services Worldwide, many of the services hold accreditations where applicable. Each accreditation follows a uniform management system which is operated by a separate legal entity within the group. The appointed legal entity is United Registrar of Systems Ltd., Derby Manor, Derby Road, Bournemouth, Dorset, United Kingdom, BH1 3QB, regarding the UKAS schemes and accreditations.

**The IAF (International Accreditation Forum)** is the world association of Conformity Assessment Accreditation Bodies and other bodies interested in conformity assessment in the fields of management systems, products, services, personnel and other similar programmes of conformity assessment. The accreditations held by the URS Holdings are all performed by Accreditation Bodies that are members of the IAF.

The United Kingdom accreditation agency UKAS is a member of IAF, which ensures the independence and competency of the UKAS accreditation.

**IATF (International Automotive Task Force)** recognises URS Certification to provide automotive certification in compliance with the standard ISO/TS 16949 - IATF 16949 URS Holdings Group offers various services Worldwide,

Many of the services hold accreditations where applicable. Each accreditation follows a uniform management system which is operated by a separate legal entity within the group. The appointed legal entity is United Registrar of Systems Ltd., Derby Manor, Derby Road, Bournemouth, Dorset, United Kingdom, BH1 3QB, regarding the IATF - SMMT schemes and accreditations.

**NABCB (The National Accreditation Board for Certification Bodies)** is the Indian accreditation body and it too is an IAF member. URS Holdings selected the NABCB to reflect the growing importance of the Asian market and India in particular. URS Holdings offers various services Worldwide, many of the services hold accreditations where applicable. Each accreditation follows a uniform management system which is operated by a separate legal entity within the group. The appointed legal entity is URS Certification Ltd., F-31, Sector 6, Noida, NCR- Delhi, India, regarding the NABCB schemes and accreditations.

**DAC (The Dubai Accreditation Centre)** is the accreditation agency for Dubai. The URS Holdings selected DAC for accreditation as the Government of Dubai has made it a requirement for all companies that produce or prepare food to be certified for the HACCP scheme or ISO 22000. URS Holdings offers various services Worldwide, many of the services hold accreditations where applicable. Each accreditation follows a uniform management system which is operated by a separate legal entity within the group. The appointed legal entity is URS ME FZC, P.O.Box 7871, SAIF Zone, Sharjah, United Arab Emirates, regarding the DAC schemes and accreditations.

**EGAC** - URS Holdings offers various services Worldwide, many of the services hold accreditations where applicable. Each accreditation follows a uniform management system which is operated by a separate legal entity within the group. The appointed legal entity is URS Egypt, 37 El Hegaz Street, 3rd floor, El Mohandessin, Giza, Cairo, Egypt, regarding the EGAC schemes and accreditations.

Our UK Accreditation Certificate is enclosed for your reference.

Best Regards

H. Ali Khan

From: Ali Khan  
CEO - URS Karachi

### **Proposal for Smart Card Specification Verification and Validation**

#### **Skills, Expertise and Capabilities:**

URS is a third party conformity assessment, training and inspection entity, headquartered in the UK. We have been operating out of Pakistan for over a decade certifying companies to different ISO standards. We have a local partner with whom we can work on this project. Their main focus over the past 18 years has been in research, software/hardware development, embedded systems and enterprise solution development. Their projects span over a variety of technologies, languages and platforms, ranging from small to large IT solutions for databases, data integration and manipulation, network infrastructure, multimedia and wireless applications development. Following are some of the areas where the team has provided services to its customers:

- Software application development
- Mobile application development
- Application development for financial services
- Customized gadgets and solutions
- Document digitalization and archiving services
- Data management services
- Modeling and simulation
- Microfilm conversion services
- Networking
- Embedded system design, development and troubleshooting
- RF microwave design, development, optimization, redesigning and troubleshooting
- PCB design from 1 to 22 layers for embedded, power and microwave systems

#### **Smart Card Testing and Verification:**

URS with its affiliated partners will provide dedicated testing and verification services for various types of smart cards that cover the following test scenarios:

#### **Mechanical and Visual Specifications**

- Size measurement i.e. (L x W x D) and calculating mean deviation with accuracy up to 0.01mm
- Visual inspection for verifying print quality, text effect, surface finish etc.

**Functional Specifications:**

- Scanning and verification of QR Code
- Reading/Writing Contact Chip data and verify data integrity
- Scanning and verification of Machine Readable Zone

**Technical Specifications:**

- Verification of data chip id (processing core) and other parameters using the Microchip EVB-SEC1210 - SEC1210 Smart Card Bridge to USB Customer Evaluation Board
- Verifying modes of UART and baud rate supported by Data Chip
- Verifying the amount of User memory available
- Verification of implemented security/encryption techniques

**Durability:**

Verifying smart card operations in extreme environment conditions such as:

- Exposure to different temperature i.e. -25°C to 85°C using ESS chamber
- Varying light intensity and direct sunlight
- Moisture and high humidity environment

**Tampering:**

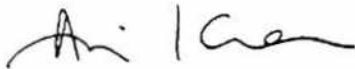

- Applying excessive voltage and/or frequency signals externally using in-lab Frequency Generator and Power Supply to analyze the behavior

**Cost:**

Following table provides estimated cost for each smart card end-to-end specification verification and validation:

Resource Category	Estimated Hours	Rate/Hour/Equipment for Testing 1 Card (PKR)	Total Cost (PKR)
Manager/Supervisor	2	10,000	20,000
Engineer	6	4,000	24,000
Technician	8	2,000	16,000
EVB-SEC1210	8	30,000	240,000
RF Equipment	4	80,000	320,000
Variable Power Supply	8	20,000	160,000
Total Estimated Cost (PKR)			780,000

Total estimated cost for the proposed work for each smart card is PKR 780,000. This cost is excluding all travel cost (if required) and applicable taxes.

**Subject:** Re: Smart Card Verification by International Third Party Firm - URS

**Mr. Ali Khan**

**Haider Ali Khan** <ceo@urs-inspection.com>

to me, Mahesh, sumair, Jasmin

Dear Mr. Shaikh,

URS have initiated testing on the Smart Cards. However, as part of the testing process some of the smart cards will be destroyed . If possi each company).

As we already have 1 set each , if the two companies could send us three of each card it will be appreciated.

Apologies for the inconvenience. We shall be completing the tests in good time.

Best

H. Ali Khan
