# infrastructure in Pakistan

ISLAMABAD: Motorola has concluded the first phase of deployment of its end-to-end WiMAX network for wi-tribe Pakistan.

The agreement for phase two includes more expansion of the existing footprint. During the first phase of the WiMAX network deployment, Motorola supplied infrastructure and a wide-ranging services package that offers cost-effective,

compelling wireless broadband services to wi-tribe clientele in Lahore, Karachi, Islamabad and Rawalpindi, said a press release issued here on Saturday.

The signing for the second phase of deployment will boost the customer coverage footprint in the existing cities and further expand the WiMAX network to newer cities.

"We are frequently grading our offerings to provide our customers with most up-to-date advanced express communication services," said Mus Paracha, CEO, wi-tribe Pakistan Limited. "By teaming with Motorola, we are offering affordable wireless internet and allowing for expanded network of seamless connectivity across Pakistan."—Agencies
