## Reports of child a in Karachi baseless

KARACHI (INP): An official notice was issued by the Citizen Police Liaison Committee (CPLC) on Friday in the wake of rumours circulating about child abduction cases in Sindh.

Citing the news and cases as baseless rumours, the CPLC clarified that official existing data did not support the unprecendented claims of kidnappings and missing children that has been making rounds on social media.

"Reports being published on social media regarding kidnapping of children are causing a lot of concerns amongst the public. CPLC plays a very important role in maintaining missing child data and integrity thereof. This data also does not support the reports being highlighted on social

media. We are also very closely monitoring the situation and unable to verify the reports published on social media in this regard, which is causing great disturbance amongst the masses," CPLC said.

The report further said that only six authentic cases in the entire year had been reported of which five had already been recovered. "During current year, only 06 child kidnapping cases are reported out of which 05 children have been recovered.

Other cases of missing children have also been reported but no element of organized kidnapping was found in any such case. Most of these missing children have been re-united with their families after being traced out or self returned."
