to Great Britain in the 1940s, the US was engaging in offshore balancing by being the "arsenal of democracy, not the fighter for it".

The current state of the US economy and President Trump's isolationist policies will limit the Pentagon to such and/or similar strategies in the foreseeable future.

In pursuit of its national interests the US is now wont to "outsourcing its conflicts" to regional players.

It provides/tells them the "arsenal" and then goes then, to do the dirty "fighting" till it becomes necessary for it to intervene and tilt the balance in its ally's and essentially its own favour.

discretion (Operation Desert Storm, January 1991-February 1991) and destroyed whatever little remained of its military might.

By default then Israel emerged as the most dominant pro-US regional hegemon in the Middle East: a classic manifestation of the strategy.

History is about to repeat itself in the Middle East now.

The US has identified Iran once again as a would-be regional hegemon threatening its interests.

Having successfully scuttled its nuclear program the US now wants it to be comprehensively neutered.

It has maneuvered masterfully in the geopolitical domain and created

attacks by a US-led coalition may be employed to deliver the coup de grace to the Iranians as and when required.

By default again, US interests will get further secured and a pro-US hegemon, Israel, will continue to dominate the region.

The Muslim world however would have foolishly self destructed once again!

Elsewhere in Asia the US is exploiting India to stymie China's rise as an uncontested Asian hegemon and a potential global political, military and economic behemoth.

The US would like India to en-

presented an opportunity in Kashmir again. Pakistan's response will be much more aggressive than it was during the Sino-India War of 1962.

It is unlikely to accept external pressures.

The unasked question is: Will the US intervene physically to tilt the balance in its ally India's favor, ever? The strategic connotations of such belligerence will surely be untold and catastrophic beyond description.

Asia as a whole and India in particular, need to find an answer to this fateful question.

OFFICE OF THE EXECUTIVE ENGINEER EDUCATION WORKS  
DIVISION JAMSHORO
