Handwritten notes and signatures on the right side of the page, including a large signature and some illegible text.

...reserve kept interest rates unchanged on... but appeared less confident than it had about... picking up. The resulting fall in the greenback is a... dollar-denominated gold since it makes the metal... expensive for investors paying in other currencies.
 Spot gold was up 0.1 per cent at \$1,261.74 an ounce at 1420 GMT after peaking at \$1,264.90, its highest since June 15.
 "Gold has been benefiting a lot recently from the weaker US dollar plus some short-covering on the futures market, where you've had record short positions," analyst Carsten Menke at Julius Baer in Zurich said. "The normalisation of positioning will leave about a 4 to 5pc upside from these levels, based on history, which would be towards \$1,300."—Reuters

By Our Staff Reporter

KARACHI: Trading activity declined on the cotton market on Thursday due to slow phutti (seed cotton) arrivals amid complaints of high moisture content.

The availability of quality cotton has become difficult particularly when most of the phutti arriving from Sindh cotton fields is reported to have high moisture due to intermittent rains.

In Punjab, phutti arrival has yet to gear up and only a few ginning mills have started operations. Though arrival of phutti by now should have been in full swing from lower Sindh due to early sowing but rains continue to disturb its picking.

It could not be ascertained as to why official spot rates of the cotton were cut down by Rs50 to Rs6,300 per 40kg, while rates on ready counter remained at overnight level.

Barring the Chinese cotton market, international markets closed steady.

The following are Thursday's Karachi Cotton Association (KCA) official spot rates for the crop (2016-17) local dealings in Pak rupees for base grade 3 staple length 1-1/16" micronaire value between 3.8 to 4.9 NCL.

Rate for	Ex-Gin Price	Up-country Expenses	Spot rate Ex-Karachi
37.324kg	6,300	135	6,435
Equivalent 40kg	6,752	145	6,897
