In this respect the potential candidates for rehabilitation and reform would be identified through this particular assignment. The proposed SEP is aimed at creating fully functional schools which have the necessary infrastructure and operational mechanism through which they can gradually improve the educational attainments of the students. Accordingly the program entails a full policy reform package to be undertaken by the Government of Sindh. Under this policy reform the Principals/Headmasters of the schools will be empowered and held accountable for the educational outcomes of the students. School Management Committees will be provided with more resource and capabilities to provide essential community oversight.</p> <p>Activities performed: Overall responsible to Architectural designing and landscape, planning, modeling and other related works for the assignment</p>
