Hills to be on pri-

Clause 12.—If the specification or estimate of the work provides for the use of any special description of materials to be supplied from the store of the P.W.D or if it is required that the contractor stand as certain stores to be provided by the Engineer-in-charge (such material and traces, and the prices to be charged therefore as heremafter mentioned being so far as practicable for the convenience of the contractor but not so as in any way to control the meaning or effect of this contract specified in the schedule or memorandum hereto annexed) the contractor shall be supplied with such materials and stores as may be required from time to time to be used by him for the purposes of the contract only and the value of the full quantity of the materials and stores so supplied shall be set off or deducted contract, or otherwise, or from the security deposits, or the proceeds of sale thereof, if the security deposits is held in Government securities, the same or a sufficient portion thereof shall in materials solve for the purpose. All materials supplied to the contractor shall remain the absolute property of Government and shall on no account be removed (tops me site of the work, and shall at all times be open to inspection by the fingineer-in-charge. Any such materials enused and in perfectly good condition at the time of completion or determination of the contract shall be refunded to the P.W.D. store, if the Engineer-in-charge so requires by a notice in writing under his band, but the contractor shall not be entitled to return any such materials except with the consent of the Engineer-in-charge and be shall have no claim for compensation on account of any such material supplied to him as aforested but remaining unused by him or for, any wastage in or damage to any such materials.

bro a supplied by

Clause 13.—The contractor shall execute the whole and every part of the work in the most substantial and work-man-like manner and both as regards material; and all other matters in strict accordance with the specifications); lodged in the office of the Executive Engineer and initiallied by the parties, the said specification being a part of the contract. The contractor shall be an experience of the contractor shall be an experience of the contractor shall be an experience.

Works to just an account of the country of the coun

that any materials or articles provided by him for the execution of the work are unsound, or of a quality inferior to that contracted for, or are otherwise not in accordance with the contract, it shall be lawful for the Engineer-inchange to intimate this fact in writing to the contractor and then not with standing (16) and the contractor and then not with standing (16) and the contractor and then not with standing (16) and the contractor and then not with standing (16) and the contractor and then not with standing (16) and the contractor and then not with standing (16) and the contractor shall be been kindled and paid for, the contractor shall be lable to paid for, the contractor shall be liable to pai that any materials or articles provided by him for the execution of the work e not exceeding ten days, during which the failur eso continues, and in the case of any, such failure the Engineer-in-charge may rectify or remove, and release execute the work or remove and replace the materials or articles complained of as the case may be at the risk and expense in all respects of the contractor. Should the Engineer-in-charge consider that any such inferior work or materials as described above may be accepted or made use of; it shall be within his discretion to accept the same at such reduced rates as he may fix therefore.

Clause 18.-All works under or in course of execution executed in Clause 18.—All works under or in course of execution executed in pursuance of the contract shall at all times be open to the inspection, and supervision of the Engineer-in-charge and his subordinates, and the contractor shall at all times during the usual working hours, and at all other times at which reasonable notice of the intention of the Engineer-in-charge or his subordinate to visit the work shall have been given to the contractor, his subordinate to visit the work shall have been given to the contractor, be present to receive orders and instructions, or have a responsible agent duly accredited in writing present for that purpose. Orders given to the contractor's duly authorised agent shall be considered to have the same force an effect as if they had been given to the contractor himself

ASH MORI

Contractor or responsible agent to be present.

Clause 19.—The contractor shall give not less than five days notice in writing to the Engineer-in-charge or his subordinate-in-charge of the work before covering up or otherwise placing beyond the reach of measurement any work in order that the same may be measured, and correct dimensions thereof taken before the same is so covered up or placed beyond the reach of measurement, and shall not cover up or place beyond the reach of measurement any work without the consent in writing of the Engineer- in -charge or his subordinate-in-charge of the work; and if any work shall be covered up or placed beyond the reach of measurement without such notice having been given to consent obtained, the same shall be uncovered at the contractor's expense, and in default thereof no payment or allowance shall be made for such work, or for the materials with which the same was executed

Clause 20.—If the contractor or his workmen, or servants shall break, deface, injure, or destroy any part of a building in which they may be working, or any building, road, fence, enclosure of grass land of cultivated ground continuous to the premises on which the work or any part thereof is being executed, or if any damage shall be done to the work, while it is in progress from any cause whatever or if any imperfections become apparent in it within three months of the grant of a certificate of completion, final or otherwise, by the Engineer-in-charge, the contractor shall make good the same at his own expense, or in default the Engineer-in-charge may cause the same to be made good by other workmen, and deduct the expenses of (which the certificate or the Engineer-in-charge shall be final) from any sums that may then be due or may thereafter become due to the contractor. that may then be due or may thereafter become due to the confractor or from his security deposits or the proceeds of sale thereof, or of a suffi cient portion thereof

Contractor liab-te for damage done, and for im-perfections for months after certificate.

Clause 21.—The contractor shall supply at his own cost all, material (except such special material, if any, as may, in accordance with the contract, be supplied from the P.W.D. Stores), plant, tools, appliances, implements, ladders, cordage, tackle, scaffolding and temporary work requisite or proper for the execution of the work, whether in the original, altered or substituted form, and whether included in the specifications or other documor substituted form, and whether included in the specifications, or other documeats, forming part of the contract of referred to in these conditions or not, and which may be necessary for the purpose of satisfying or complying with and which may be necessary for the purpose of satisfying or complying with the contract of the Engineer-in-charge as to any metars as to which

thereupon stand forfeited and be absolutely at the disposal of Government and the same consequences shall ensure as if the contract had been reseinded under choice 3 thereof and in addition the contractor shall not be entitled to recover or bapping for any work therefore actually performed under the contract.

Clause 27.—All sums payable by a contractor by way of compensation under any of these conditions shall be considered as a resonable compensation to be applied to the use of Government without reference to the actual loss or damage sustained, and whether any damage has or has not been sustained.

Clause 28.—In the case of a tender by partners any change in the constitution of a firm shall be forthwith notified by the contractor to the Engineer-in-charge for his information.

Clause 29.—All works to be executed under the contract shall be executed under the direction and subject to the approval in all respects of the Superintending Engineer of the circle for the time being, who shall be entitled to direct at what point or points and in what manner they are to be commenced and from time to time carried on.

Clause 30.—Except where otherwise specified in the contract and subject to the powers delegated to him by Government under the Code rules then in force, the decision of the Superintending Engineer of the circle for the time being shall be final, conclusive and binding on all parties to the contract upon all questions relating to the meaning of the specifications, designs drawinger, and instructions hereinbefore mentioned and as to the quality of workmanship, or materials used on the work or as to any other question, claim, right, matter, or thing whatsoever in any way arising out of, or relating to the contract design, drawings, specifications, estimates, instructions, orders or these conditions or otherwise concerning the works, or the execution, or failure to execute the same, whether arising, during the progress of the work, or after the completion or abandonment thereor.

Clause 31.—The contractor shall obtain from the P.W.D. stores all stores and articles of European or American manufacture which may be required for the work, or any part thereof or in making up any articles required therefor or in connection therewith, unless he has obtained permission in writing from the Engineer-in-charge to obtain such stores and articles elsewhere. The value of such stores and articles as may be supplied to the contractor by the Engineer-in-charge will be debited the contractor in his account at the rates shown in the schedule in form "A" attached to the contract and if they are not entered in the said schedule, they shall be debited to him at cost price which for the purpose of the contract shall include the cost of carriage and all other expenses whatsoever, which shall have been incurred in obtaining delivery of the same at the stores aforeseid.

Clause 32.—When the estimate on which a tender is made includes lump sums in respect of part of the work, the contractor shall be entitled to payment in respect of the items of work involved or the part or the work in question at the same rates as are payable under this contract for such items, or if the part of the work in question is not in the opinion of the Engineer-in-charge capable of measurement, the Engineer-in-charge and the certificate in writing of the Engineer-in-charge shall be final and conclusive against the contractor with regard to any sum payable to him more the provisions of this clause.

Clause 33.—In the case of any class of work for which there is no such specification as is mentioned in Rule I such work shall be carried out in accordance with the Divisional specification, and in the event of there being to Divisional specification, than in such case the work shall be carried out in all respects in accordance with the instructions and requirements of the Helicap-in-charge.

Sum payable by way of compensation to be considered as reasonable compensation with out reference in actual tone.

Changes in the constitution of tirm to be notified.

Works to be under direction of Superintending Engineer

Decision of Supdig: Engines to be final,

Stores of European or American manufacture to be obtained from Government.

Lomp sums in

Action where no

Market

Clause 45.— If any materials, such as stones metal, bajri, said etc. are required to be conveyed by rail, the contractors will be granted certificates by the Engineer-in-charge of the work to the effect that the materials are required for Government or semi-Government works thereby enabling them to have the benefit of concessionary freight charges from the railway. In case, however, such a concession is withdrawn by the railway at any time during the currency of the contract, no claim shall be preferable against Government on this account.

Clause 46 .- When tendered rates are the same preference will be given at the discretion of the accepting authority to those who tender for the carting of materials by vehicles having penumatic tyres.

liable for recovery as arrears of Land Revenue.

Clause 48—Certified that no member of Legislative Assembly is in partnership with me and that Government will have the right to terminate the contract at any stage if it is discovered that a member of Legislative Assembly is a partner in the contract.

Clause 49—I/We hold myself/ourselves responsible to pay the Sales Tax as livied in accordance with Pakistan General Sales Tax Act. 1948, or any other law for the time being in force.

Clause 50.—Certified that no Government servant has directly or indirectly a share or interest in the work.

Clause-51.-The contractor will not be allowed to withdraw his and ask for the return of ernest money before expiry of the period shown as under, commencing from the date of opening of the tender and that if it is withdrawn in violation of this condition carnest money shall be forfieted.

When the sanctioning authority for the tender is:-

Executive Engineer

One month.

Superintending Engineer

Two months.

Chief Engineer

Three months.

Government

Six months.

Clause 52."If any question, difference or objection whatsoever shall arise in any way contracted with or arising out of this instrument or the meaning or objection of any part thereof, the rights, duties or liabilities of either party, then save in so far as the decision of any such matter is here in fore provided for as has been so decided, every such matter including whether its decision has been otherwise provided for any or rogards the right of and obligations of the parties as the result of such termination shall be referred for arbitration to such person as may be appointed in this behalf by Chief Engineer, (Irrigation), Department and his decision shall be finaland binding and where the matter involves a claim for or the payment recovery or deduction of money, only the amount, if any awarded in such arbitration shall be recoverable in respect of the matters so referred;"

Certified that the Tender has been executed under my personal supervision and I am satisfied that it has been correctly propared in accordance with the orders issued vide Government P. W. D. circular Memo No. 1015 W dated 14th September, 1937, and subsequent orders issued in this connection.

Certified that I have noted the content of Government I. W. D. Circular Memorandum No. 1006-1 dated 21st February, 1950, wherein the responsibility of getting the tender checked efficiently is placed on me.

Clause 1.—The $\frac{\text{Person}}{\text{Persons}}$ whose tender may be accepted (hereinafter called

cont special and s

"(a) To rescind the contract (of which rescision notice in writen to the contractor under the band of the Executive Engideer shall be conclusive evidonce, and in that case the security deposit of the contra7tor shall stand?

(b) To employ iabour paid by the Public Work Department and to the supply materials to carry out the work, or any part of the work, debiting the contractor with the cost of the lahour and the price of the materials (as to the correctness of which cost and price the certificate of the Executive Engineer shall be final and conclusive against the contractor) and crediting him with the value of the work done, in all respects in the same manner and at the same rates as if it had been carried out by the contractor under the terms of his contract; and in that case the certificate of the Executive Engineer, as to the value of the work done shall be final and conclusive against the contractor.

(c) To measure up the work of the contractor and to take such part thereof as shall be unexecuted out of the hands, and to give it to another contractor to complete in which case any expenses which may be incurred in excess of the sum which would have been paid to the original contractor if the whole work had been executed by him (as to the amount of which excess expenses the certificates in writing of the Executive Engineer shall be final and conclusive) shall be borne and paid by the original contractor and shall be deducted from any money due to him by the Government under the contract or otherwise or from him security deposit or the proceeds of sale thereof, or a sufficient part thereof.

to the event of any of the above courses being adopted by the Executive Engineer, the contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials, or entered into any engagements, or made any advances on account of, or with a view to the execution of the work or the performance of the contract. And in case the contract shall be rescinded under the provision faforesaid, the contractor shall not be entitled to recover or to be paid any sum or any work therefore actually performed by him under this contract unless and until the Executive Engineer shall have certified in writing the performance of such work and the amount payable in respect thereof, and he shall only be entitled to be paid the amount to certified

Clause 4.—If the progress of any particular portion of the work is unsatisfactory Executive Engineer shall, notwithstanding that all the general progress of the work is in accordance with the conditions mentioned in clause 2, be entitled to take action under clause 3 (b) after giving the contract 10 day's notice in writing. The contractor will have no claim. for compensation, for any loss sustained by him owing to such action.

Clause 5.—In any case in which any of the powers conferred upon the Executive Engineer by the clause 3 and 4 thereof shall have become exercise able and the same shall not have been exercised, the non-exercise thereof shall not constitute a waiver of any of the conditions hereof and such powers shall notwithstanding be exerciseable in the event of any future case of default by the contractor for which under any clause or clauses hereof he is declared liable to pay compensation amounting to the whole of his security deposit and the liability of the contractor for past and future compensation shall remain unaffected. In the event of the Executive Engineer taking action under remain unaffected. In the event of the Executive Engineer disting action under sub-clause (a) or (c) of clause 3, he may, if he so desires, take possession of all or any tools, plant, materials and stores in or upon the works, or the site thereof or belonging to the contractor, or procured by him and intended to be used for the execution of the work or any part thereof, paying or allowing for the same in account at the contract rates, or in the case of contract not being applicable, at current market rates, to be certified by the Executive Engineer whose certificate thereof shall be final. In the alternative engineer whose certificate thereof shall be final. In the alternative engineer whose certificate thereof shall be final. native the Executive Engineer may, after giving notice in writing to the conhim to remove such tools, plant, materials, or stores from the premises within a time to be specified in such notice, and in the event of the contractor failing to comply with any such requisition, the Executive Engineer may remove them at the contractor's expense or sale them by auction or private sale on account of the contractor and at his risk 1 all respects, and the certificate of the Executive Engineer as to the expense of any such removal and the amuont of the proceeds any expense of and such sale shall be final and contractor.

against the final payment only and not as payments for work ctually done and completed, and shall not oreclude the Engineer-in-charge from requiring Distant had, unsound, imporfert or unskilful work to be removed in taken away in the constructed, if re-erected not shall any such payment be considered and is an admission of the due performance of the contract or any part thereof in any respect of the accounting of any stains nor shall it conclude, determine; or effect in any other way the removes of the Ingineer-in-charge as to the final settlement and admission of the accounts of otherwise, of in any way vary or effect the contract. The final Bill shall be submitted by the contract or within one month of the date trace for the confidence of the work otherwise. Engineer-in-charge's certificate of the measurements and of the total amount payable for the works shall be final and binding on all perfes.

Clause 9.—The rates for several items of works estimated to cost more than Rs. 1,000 agreed to within, shall be valid only when the item concerned is accepted as having been completed full in accordance with the sanctioned specifications. In cases where the items of work are not accepted as so completed the Engineer-in-charge may make payment on account of such items at such reduced rates as he may consider reasonable in the preparation of fiinal or on account hills.

Payment at freeuced rates on accusuat of item of work not accepted as completed to be at the direction of the Engineo-incharge.

Cluase 10.—A bill shall be submitted by the contractor as frequently as the progress of the work may justify for all work executed and not included in any previous bill and the Engineer-in-charge shall take or cause to be taken the requisite measurements for the purpose of having the same verified and the claim, as for as admissible, adjusted, if possible before the expiry of ten days from the presentation of the bill, at any time depute a subordinate to measure up the said work in the presence of the contractor or his authorised agent, whose countersignature to the measurement list will be sufficient warrant and the Engineer-in-charge may prepare a bill from such list which shall be binding on the contractor in all respects.

till to be submitted monthly.

Clause 11.—The contractor shall submit all bills on the printed forms to be had on application at the object of the Engineer-in charge. The charges to be made in the bills shall always be entered at the rates specified in the tender or in the case of any extra work ordered in pursuance of these conditions, and not mentioned or provided for in the tender at the rates bereinafter provided for such work.

Hills to be on pri-

Clause 12.—If the specification or estimate of the work provides for the use of any special description of materials to be suppled from the store of the P.W.D or is a sequired that the contractor small as certain stores to be provided by the Engineer-in-charge (such material and cones, and the prices to be charged therefore as hereinafter mentioned being so far as practicable for the convenience of the contractor but not so as in any way to control the meaning or effect of this contract specified in the schedule or memorandum hereto annexed) the contract specified in the schedule or memorandum hereto annexed) the contract specified in the schedule or memorandum hereto annexed) the contract of the supplied with such materials and stores as may be required from time to time to be used by him for the purposes of the contract only and the value of the full quantity of the materials and stores so supplied shall be set off or deducted contract, or otherwise, or from the security deposits, or the proceeds of sale thereof, if the security deposits is held in Government securities, the same or a sufficient portion thereof shall in that case be sole for the purpose. All materials supplied to the contractor shall remain the absolute property of Government and shall on no account be removed from the size of the work, and shall at all times be open to inspection by the Engineer-in-charge. Any such materials massed and in perfectly good condition at the time of completion or determination of the contract shall be refunded to the P.W.D. store, if the Engineer-in-charge so requires by a notice in writing under his hand, but the contractor shall not be entitled to return any suon materials except with the consent of the Engineer-in-charge and he shall have no claim for compensation on account of any such material supplied to him as aforested but remaining unused by him or for, any wastage in or damage to any such materials.

and a supplied by

Clause 13.—The contractor shall execute the whole and every part of the work in the most substantial and work-man-like manner and both as regards materials and all other matters in strict accordance with the specifications lodged in the office of the Executive Engineer and initialized by the parties, the said specification being a part of the contract. The contractor shall size
