Clause 6.— If the contractor shall desire an extension of the time for completion of the work on the ground of his having been unavoidably hindered in its execution or on any other ground, he shall apply in writing to the Executive Engineer within 30 days from the date on which he was hindered as aforesaid or on which the ground of asking for extension arose and in any case before the date of completion of the work, and the Executive Engineer may, if in his opinion there are reasonable grounds for granting an extension, grant such extension as he thinks necessary or proper. The decision of the Executive Engineer in this matter shall be final.

Provided that where the contractor is hindered in the execution of the work on account of any act or omission on the part of the P.W.D. or any of its authorised officers the Executive Engineer, may at any time before the date of completion and on his own initiative extend the time for completion of the work for such period as he may think necessary or proper.

Where time has been extended under this or any other clause of this agreement the date for completion of the work shall be the date fixed by the order giving the extension, or by the aggregate of all such orders, made under this agreement.

When time has extended as aforesaid, it shall continue to be the essence of the contract and all clauses of the contract shall continue to be operative during the extended period.

Clause 7.— On completion of the work, the contractor shall be furnished with certificate by the Executive Engineer (hereinafter called the Engineer-in-charge), of such completion, but no such certificate shall be given and the work has been executed, or other parts of any Building in or upon which the work the premises on which the work shall have been executed all scaffolding, surplus materials and rubbish, and shall have cleaned off the dirt from all woodwork, doors, windows, walls, floors, or other parts of any building in or upon which the work has been executed, or other parts of any Building in or upon which the work has been executed, or of which he may have had possession for the purpose of executing the work, nor until the work shall have been measured by the Engineer-in-charge or where the measurements have been taken by his subordinates until they have received the approval of the Engineer-in-charge, the said measurements being binding and conclusive against the contractor. If the contractor shall fail to comply with the requirements of this clause as to the removal of scaffolding, surplus materials and rubbish, and cleaning off dirt, or before the date fixed for the completion of the work, the Engineer-in-charge, may, with the authority of the contractor remove such scaffolding, surplus materials and rubbish, and dispose of the same as he thinks fit and clean of such dirt, as aforesaid; and the contractor shall forthwith pay the amount of all expenses incurred, and shall not claim any part of the cost of such scaffolding or surplus materials and rubbish, or any such cleaning, or the cost of the sale thereof.

of the Engineer-in-charge as required in the contract and he shall not be entitled to return any such materials except as hereinafter provided and he shall have no claim for compensation or reimbursement of any kind for materials furnished but remaining unused by him or his subordinates.

Clause 12.—The contractor shall execute the work and provide all the material and labor and sub-materials and tools and appliances and all the necessary expenses with specification, lodged in the office of the Executive Engineer and approved by him, the said specification being a part of the contract. The contractor shall carry out the work fully and faithfully to the designs, drawings and instructions in relation to the work as given by the Engineer-in-charge and lodged in his office and to which the contractor shall be entitled to have access at such office or on the site of work for the purpose of inspection during office hours and the contractor shall, if he so requires, be entitled at his own expense to make or cause to be made copies of the specifications, and of all such, drawings, and instructions as aforesaid.

Clause 14.—The Engineer-in-charge shall have powers to make any alterations, additions or omissions to the original specifications, drawings, designs, and instructions, it may be deemed necessary or advisable during the progress of the work, and the Contractor shall be bound to carry out the work, in accordance with any instructions in this behalf which may be given to him in writing signed by the Engineer-in-charge and such alterations shall not invalidate the contract and by altered or additional work which the contractor may be directed to do in the manner above specified subject to the limit laid clause 13 below as Part of the work shall be carried out by the Contractor on the same conditions in all respects on which he agreed to do the main work, and at the same rates, as are specified in the tender for the main work. The time for the completion of the work shall be extended in the proportion that the additional work bears to the original contract work and the certificate of the Engineer-in-charge as to such proportion shall be conclusive, and if the altered or additional work includes any class of work for which no rate is specified in this contract, then such class of work shall be paid for at a percentage (.....) per cent below the rate shown in the schedule of rates of the Division and if such last mentioned class of work is not entered in the schedule of rates of the Division, the contractor shall, within seven days of the date of receipt by him of the order to carry out the work in conformity with the Engineer-in-charge of the alteration, make a quotation for such class of work, and it shall be the duty of the Engineer-in-charge to examine the same and to work out by him on detailed cost analysis, then he shall fix a rate for such class of work, to be carried out by him in order to carry out such class of work and arrange to carry out the same at such rate as may be deemed advisable provided always that of the above said rate the contractor shall be entitled to have a percentage (.....) per cent above the same, and if the contractor is not satisfied with the rate so determined as last aforesaid, he shall be entitled to refer the matter to the Engineer-in-charge, who shall only be entitled to be paid for the work done up to the date of such reference and the rate to be fixed by the Engineer-in-charge. In the event of a dispute, the decision of the Superintending Engineer of the circle will be final. In case the contractor is still not satisfied with the decision he may bring the matter for arbitration accordance with the procedure laid down in clause—52.

Clause 15.—If at any time after the execution of the contract or contents the Contractor-in-charge shall for any reason whatsoever not require the whole or any part of the work to be carried out at all or carried out then, he shall give notice in writing of the same to the contractor, who shall thereupon have no claim to any payment or compensation or reimbursement of any kind for profit or advantage, which he might have derived from the execution of the work, but which he did not so derive in consequence of the full amount of the work not having been carried out, neither shall he have any claim for compensation by reason of any alterations, having been made in the original specifications, drawing, designs and instructions, which may involve any curtailment of the work as originally contemplated. Where materials, have already been collected at site of the work before the receipt of the said notice to stop or curtail the work, the contractor shall be paid for such materials at the rate determined by the Engineer-in-charge provided they are not in excess of requirements and are of approved quality.

In no circumstances whatever shall the contractor be entitled to any compensation from Government on any account unless the same shall have been submitted in writing to the Engineer-in-charge within one month of the date of the occurrence.

Clause 17.—If at any time before the security deposit is tendered by the contractor, it shall appear to the Engineer-in-charge or his subordinate-in-charge that any work has been executed with unsatisfactory or imperfect quality, he shall be entitled to suspend the contractor from any further work or articles provided, subject to the condition that the contractor shall be liable to pay for the work done up to the date of such suspension.

...to that contractor, for, or in order, and not in accordance with the contract, it shall be liable for the Engineer-in-charge to intimate the defect in writing to the contractor and when not with standing the fact that the work materials or articles complained of may have been inadvertently passed, certified and paid for, the contractor shall be bound forthwith to rectify or remove and reconstruct the work so specified in whole or in part, or the case may require, or if so required, shall remove the materials or articles so specified and provide other proper and suitable materials, articles at his own proper charge and cost and in the event of his failing to do so within a period to be specified by the Engineer-in-charge in the writing intimating the defect and the contractor shall be liable to pay compensation at the rate of one percent. On the amount of the estimate for every day not exceeding ten days during which the failure so continues, and in the case of any such failure the Engineer-in-charge may rectify or remove, and re-execute the work, or remove and replace the materials or articles complained of as the case may be at the risk and expense in all respect of the contractor. Should the Engineer-in-charge consider that any such inferior work or materials as described above may be accepted or made use of, it shall be within his discretion to accept the same at such reduced rate as he may fix therefore.

Work to be done by contractor

Clause 18.— All works under or in course of execution executed in pursuance of the contract shall at all times be open to the inspection and supervision of the Engineer-in-charge and his subordinates, and the contractor shall at all times during the usual working hours, and at all other times at which reasonable notice of the intention of the Engineer-in-charge or his subordinate to view the work shall have given to the contractor, or of himself, consent to receive orders, instructions, and have a responsible agent duly accredited in writing produced for that purpose, and orders given to the contractor's duly authorized agent shall be considered to have the same force and effect as if they had been given to the contractor himself.

Notice to be given before work is covered up

Clause 19.— The contractor shall give not less than five days notice in writing to the Engineer-in-Charge of his subordinate-in-charge of the work before covering up or otherwise placing beyond the reach of measurement any work in order that same may be measured and correct dimensions thereof taken before the same is so covered up or placed beyond the reach of measurement, and shall not cover up or place beyond the reach of measurement any work without the consent in writing of the Engineer-in-charge or his subordinate-in-charge of the work, and if any work shall be covered up or placed beyond the reach of measurement without such notice having been given to consent obtained, the same shall be uncovered at the contractor's expense, and in default thereof no payment or allowance shall be made for such work, or for the materials with which the same was executed.

Notice to be given before work is covered up

Clause 20.— If the contractor or his workmen or servants shall erect, define or place upon any part of a building in which they may be working or any building, road, fence, wall, or other land or cultivated ground continuously the premises on which the work or any part thereof is being executed, or if any damage shall be done to the work while it is in progress from any cause whatever, or if any imperfections become apparent in it, within three months of the grant of a certificate of completion, final or otherwise, by the Engineer-in-charge, the contractor shall make good the same at his own expense, or in default the Engineer-in-charge may cause the same to be made good by other workmen, and deduct the expenses of which the certificate of Engineer-in-charge shall be final from any sums that may then be due or may thereafter become due to the contractor, or from his security deposits, or the proceeds of sale thereof, or of a sufficient portion thereof.

Contractor to supply plant, materials, etc.

Clause 21.— The contractor shall supply at his own cost all material (except such special material, if any, as may in accordance with the contract, be supplied from the P.W.D. Stores), plant, tools, appliances, implements, ladders, cordage, tackle, scaffolding and temporary work requisite or proper for the execution of the work, whether in the original, altered, or substituted form, and whether included in the specification, or other documents, forming part of the contract of referred to in these conditions or not, and which may be necessary for the purpose of satisfying or complying with the requirements of the Engineer-in-charge as to any matter as to which under these conditions he is entitled to be satisfied, or which he is entitled to require, together with the carriage therefore to and from the work. The contractor shall also supply without charge the requisite number of persons with the means and materials necessary for the purpose of setting out works, and continuing, measuring, assisting in the measurement or examination of any time and from time to time of the work or the material. Failing this the same may be provided by the Engineer-in-charge at the expense of the contractor and the expenses may be deducted from any moneys due to the contractor under the contract, or from his security deposit or the proceeds of sale thereof, or of a sufficient portion thereof. The contractor shall provide all necessary fencing and lights required to protect the public from accidents, and shall also be bound to bear the expenses of defence of every suit, action or other legal proceedings, that may be brought by any person for injury or damage, owing to neglect of the above

And in like manner during the execution of the work

precautions, and to pay any damages and costs which may be incurred in any such suit action or proceedings to any such person, or which may with the consent of the contractor be paid for compromising any claim by any such person.

Clause 22.— The contractor shall not set fire to any lands, buildings, tracks, lines, or roads or grass without a written permit from Executive Engineer

When such permit is given, and also in all cases, when cutting, clearing, or grubbing, or burning, or mowing, or any fire the contractor shall take necessary measures to prevent accident spreading to or otherwise damaging surrounding property.

The contractor shall make his own arrangements for drinking water for the labour employed by him.

Clause 23.— Compensation for all damage done intentionally or negligently by the contractor's labour whether in or beyond the limits of Government property including any damage caused by the spreading of fire mentioned in clause 22 shall be estimated by the Engineer-in-charge subject to the decision of the Superintending Engineer, an appeal shall be final and the contractor shall be bound to pay the amount of the assessed compensation on demand failing which the same will be recovered from the contractor as damages in the manner prescribed in clause 12 or recovered from the contractor as damages in the manner prescribed in clause 12 or deducted by the Engineer-in-charge from any sums that may be due or become due from Government to the contractor under this contract or otherwise.

The contractor shall bear the expenses of defending any action or legal proceedings which may be brought by any person for injury sustained by him owing to negligence or carelessness or spread of fire and he shall pay any damages and costs that may be awarded as a result of such proceedings.

Clause 24.— The employment of female labourers on works shall be discontinued and their barracks should be avoided as far as possible.

Clause 25.— No work shall be done on a Friday with the exception of the work of the Engineer-in-charge.

Clause 26.— The contract shall not be assigned or sublet without the written approval of the Engineer-in-charge. And if the contractor shall assign or sublet his contract or attempt so to do, or become insolvent or commences any proceedings to be adjudicated an insolvent or make any composition with his creditors, or attempt so to do, the Engineer-in-charge may by notice in writing rescind the contract. The contractor shall keep full and true accounts of the contract of works in the regular course of business and shall whenever called upon by the Engineer-in-charge by notice in writing produce them for inspection by him or by any officer appointed by him in that behalf. Also if any bribe, gratuity, gift, loan, reward or advantage precautionary or otherwise, shall either directly or indirectly be given, promised or offered by the contractor or any of his servants or agents to any public officer or person in the employ of Government in any way relating to his office or employment or if any such officer or person shall become in any way directly or indirectly interested in the contract or if the contractor does not keep accounts or fails to produce them as aforesaid the Engineer-in-charge may by notice in writing rescind the contract. In the event of a contract being rescinded the security deposit of the contractor shall thereupon stand forfeited and be absolutely at the disposal of Government and the same consequences shall ensue as if the contract had been rescinded under clause 3 thereof and in addition the contractor shall not be entitled to recover or be paid for any work therefore actually performed under the contract.

Clause 27.— All sums payable by a contractor by way of compensation under any of these conditions shall be considered as a reasonable compensation to be applied to the labour of Government labour in reference to the actual loss or damage sustained and whether any damage has or has not been sustained.
