Q 4 : Procuring Agency has used "Brand Name" mentioned in bill of quantities at Sr. No. 30. The procuring agency is required to mention the word "or equivalent" with the brand name in terms of Rule-13.

A 4 : The tender is called for the **Video Security Surveillance System** in Karachi. The main components of the project includes the CCTV, Servers, Storage and Switches. Computer system is a nominal part of the solution and tender component. In the BOQ it was observed by your good self that on Serial No. 30 Hp brand name was written with the general configuration specification. It is such nominal component and readily available in the market everywhere. Having that brand name of this component in the BOQ will never hurt the transparency element nor promote any brand. It will not affect the open competition We will make sure that in future we will not use the brand name of any type in any components. Your observation is duly noted.

Q 9 : The instant procurement pertains to surveillance system, therefor Pakistan Engineering Council "PEC" specialization EE02 category should be applicable for eligibility of bidders as per PEC guidelines.

A 9 : The PEC Requirement is already mentioned in the tender documents.
