Minutes of the Technical Committee Meeting

A meeting was held on 27th January 2012 to review the technical offers for the genome analyzer under 2 envelope procedure.

Three bids were received. All three instruments i.e. Azco Biotech's Max Seq, Illumina's GAIIX and Applied Biosystem's 5500XL claim to have been designed for human genome sequencing. AB's 5500XL and Illumina's GAIIX are routinely in use for genome sequencing whereas the Azco Biotech's instrument has appeared in the market only in March 2011 and till now; no publication has appeared using this machine to prove its efficiency.

The committee after carefully analyzing the technical specifications invited the bidders i.e. MS. AMS (Pvt.) Ltd., MS Global Marketing Services and MS. Uni Trade on 13th Feb. 2012 and has discussed the issues of installation, availability of spares, training of engineer and scientist, service/repair, etc.

The committee unanimously recommends purchase of AB's 5500XL.
