31 January, 2018

Submitted by Joint Venture of:

BLIC GmbH, Germany

EA Consulting Pvt. Ltd., Pakistan

DCC Pvt. Ltd., Pakistan

1.1. Objective of the PQ

One of the most important component of BRTS project is the "Integrated Intelligence Transport System (IITS)" which aims to create an integrated system environment that supports seamless communications of system and sub system, characterized by user friendliness and customer focus. According to the scope the following transport related systems are considered in the IITS components.

System 1: Automated Fare Collection (AFC) system

System 2: Fleet Management / Fleet Management System (AVL)

System 3: Passenger Information system (RTPI)

System4: Business Intelligence Software

System5: Bus Depot Management System

System6: Operation Control Centre (OCC)

System7: Communication Network System

System8: Security & Surveillance System

System9: Energy Management System

System10: Bus Docking System

For the purpose of procurement installation, commissioning, calibration under the IITS strategy, the project scope has been divided into three packages. The PQ process for prospective contractors for each package is mentioned in subsequent section.

The main objective of the PQ was to shortlist thereputed companies/firms/JVs to Design,Procure, Finance, Operate, Maintain and Transfer IITSfor Bus RapidTransit System (BRT) – Green Line (21 Stations Mandatory) and Orange line.

Further, using the PQ responses, a final setup of the system concept for the RFP can be designed to ensure that the packages are competitive and attractive for companies.

1.2. PQ Dates

- The PQ was floated on25thFebruary 2017 by the Government of Sindh under codes 31807 and 31806.
- The Submission deadline was of 28thApril 2017.
- Clarifications from the bidders have been requested in first week of July 2017
- Final Set Documents from bidders after clarification request have been provided to the JV on 30th August 2017.

1.3. Important Note

The PQ evaluation was using submitted documents only. There was a request for information to allow bidders to comply with the PQ procedure for missing documents.

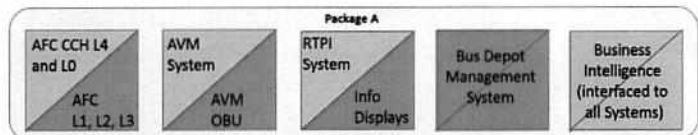

Contrary to the RFP evaluation procedure, the bidders' response is not yet evaluated by contacting third parties for confirmation of provided information.

1.4. Packages for Prequalification

The following grouping represents the identified integration levels for the abovementioned systems and as such the requested bidding packages for the IITS Karachi:

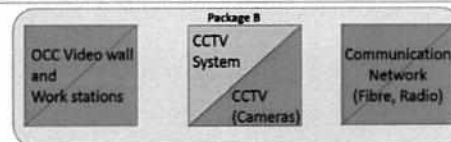

Package A:

- a) Automatic Fare Collection (AFC)
- b) Fleet Management System (AVL)
- c) Passenger Information system (RTPI)
- d) Business Intelligence Software
- e) Bus Depot Management System

Package B:

- f) Operation Control Centre (OCC)
- g) Communication Network System
- h) Security & Surveillance System

Package C:

- i) Energy Management System
- j) Bus Docking System

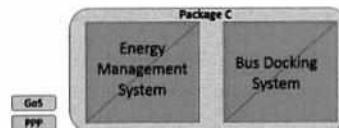

Figure 1: IITS recommended Packages

The bidders had the option to bid under Public Private Partnership PQ 31807 or under traditional mode 31806 of procurement process.

Each contractor was allowed to propose for one or for multiple packages

Handwritten signatures and initials, including a circled 'K' and several scribbled signatures.

1.5. PQ Criteria for the Evaluation

Following the Formal check, the PQ was split in 5 Major categories and the following thresholds:

ID	Category	Points	
		Maximum	Minimum Acceptable
1	Company Profile (Personal, equipment and History)	25	17.5
2	Financial Soundness /Status	20	14
3	General Experience Record (References)	30	21
4	Availability of Products and services	20	14
5	Litigation History	05	3.5
		Sum: 100	Sum: 70

Each bidder was evaluated by minimum two consultants and the results have been averaged linear. Example Consultant 1 scored bidder A with 3 points, consultant 2 scored bidder B with 5 points, the results for bidder A is 4 points. The details of Pre-Qualification process are submitted in the detailed report submitted separately.

1.6. List of Bidders

1.8. Conclusion

1.8.1. Prequalified bidders

The following Bidders have been qualified for the bid according to the result matrix:

<u>Package A:</u>	Apex Conduent INBOX NEC Quindago, Hisense LMKT/LOT Trapeze
<u>Package B:</u>	Qingdao/Hisense Trapeze
<u>Package C:</u>	TPL / Tracker

The remaining bidders have according to the evaluation NOT qualified.

1.8.2. Recommendation for pre-qualification

The bidders of list 1.8.1 shall be prequalified and be informed accordingly.

Since bus Docking system is now part of supply for Automatic Doors this can be removed from the scope of the contractors

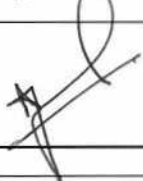

The remaining scope of Energy management system has very few bidders left and these are bidders on other packages as well. As such in line with the client meeting on 29th September 2017, it is decided to include the Energy Management in the Package B and Package C will be removed.

Hence now there are only Package A and B.

The image shows several handwritten signatures and initials in black ink. On the left, there is a large, stylized signature. Below it, there are several smaller, more scribbled signatures. To the right, there are several initials, including one that looks like 'K' inside a circle, and another that looks like 'H'.

2. Approval

The recommendation of section 1.8.12 have been approved by the following members of TFEC as signed below:
