KARACHI: Senator Saeed Ghani said that the federal government had not yet defined the parameters of privatisation policy due to which an ambiguity had prevailed as how many national institutions had so far been privatized and what were the results of institutional so far the privatized. Investigation were conducted in 14 cases of privatisation, which report was not yet made public while various cases against the privatisation of national institutions were pending with the courts for many years.

He said this while addressing a seminar on the theme of "Privatisation of National Institutions- A Great Tragedy", which was organized by Karachi Electric Supply Company Labour Union.

Senator Ghani was of the opinion that even the Judges of the higher courts had accepted the pressure from owners of the privatized national institutions, which added the agony to the already affected labourers.

The management of institutions privatized would certainly bow down if a million workers take to street against injustices and tyranny.

He said that Pakistan People's Party Parliamentarian had a resentment for failing to resolve the issue of workers of the KESC during its previous tenure.

While condemning the federal government's privatisation policy, he said that the federal government had further decided to privatise more national institutions.

While speaking on the occasion, Pakistan Muslim League-Nawaz leader Nihal Hashmi said that the process of privatisation was initiated in 1990 and by privatizing the MCB Bank, the federal government had earned Rs 86 billion in terms of revenue.
