The procurement procedure adopted this year was in pursuance to the old practice and done on the basis of the said Notification in good faith. However a new notification, meeting the requirement of SPPRA rule-7 and 8 has been issued. (Copy enclosed).

The department is currently under a great pressure to meet the challenges of outbreak of sheep pox, FMD, PPR, in the Livestock population of Tharparkar and adjoining districts which have claimed thousands of animal lives, resulting into loss of millions of rupees of subsistence farmers. The issue is being highlighted in the media and noticed by the Chief Minister. The district has been declared calamity hit area and the department is under directions from the Chief Minister Sindh & higher authorities to take all available preventive / curative measures to fight this outbreak. Special teams i.e. 15-20 members have been deputed from all over the province to protect the animal population in the districts where outbreak of disease is causing maximum damage. The available resources of the districts have been provided to these teams.

There is an immense demand of vaccination & the medicines which have to be met from the purchase of Directorates, therefore in emergency, we may be allowed to complete all the procurements as per previous practice to save the endangered animal population of these calamity hit areas. It is further highlighted that if the procedure of procurement is adopted a fresh in the light of new technical and procurement committee it will be a great impediment in the drive of department which carried out in these areas, that may result in more damage and further loss of animals lives and finances. which may become un- controllable and damage the political reputation of the present government.
