## Prequalification Evaluation Report

Improvement of Road Network from Thatta to Wango Mor via Sujawal, Badin with Construction of 05 Bypasses, Rehabilitation of Damaged Road portion and Rehabilitation/Reconstruction of Structures (Phase I, 176 Km) (ADP # 98), 2013-14  
Construction of Sujawal Bypass (CP # V)

### 1.0 Preamble

The Government of Sindh, Energy Development Department is taking steps to provide infrastructure to generate power/energy from Coal, which is a natural gift available in mass quantity in the desert area of Tharparkar District in the Province of Sindh. For exploring the coal by open cast mining and power generation, heavy machinery and equipment is to be transported from Sea port Karachi to Thar Coal Field Area. As per requirements of the potential investors for providing safe access to transport their heavy equipment and machinery to the Coal Field Area, the existing road network needs to be improved to cater for heavy loading requirements. The Government of Sindh, Energy Development Department/Sindh Coal Authority has therefore decided to Rehabilitate, Reconstruct, Widen and Improve / strengthen the existing road from Karachi Thatta to Thar Coal Field Area via Thatta, Sujawal, Badin, Wango Mor, Mithi and Islam Kot.

To design and construct the Project road on fast track, the Project road is divided into two (2) phases, Phase I and Phase II. Each phase will further be divided into number of contract packages for construction.

For the construction of both the phases it was decided by the SCA to initiate Prequalification of National (Local) Firms/Organizations. Accordingly, Notice Inviting Tender for Prequalification of Contractors was advertised in the news papers.

This Prequalification Evaluation Report is to prequalify the firms/organizations (Applicants) for the Construction of Sujawal Bypass which is part of Phase-I.

Pre-qualification is a process to select firms or combination of firms that are suitably experienced in the type of proposed works and construction technology involved, that are financially and managerially sound, and that can mobilize resources in a timely manner to ensure successful execution of the contract. Pre-qualification is then followed by the closed competitive bidding in which only those Applicants meeting the specified criteria are invited to bid.

Pre-qualification Notice for both the phases was published in the national newspapers on 11<sup>th</sup> January 2014. Pre-qualification Documents were issued as per notified schedule. A total of 46 firms purchased the Pre-qualification Documents, whereas 40 applications were submitted by the firms or as Joint Venture up to 29<sup>th</sup> January 2014, the last date for submission of applications.

## 2.0 **Pre-qualification Evaluation Criteria**

Pre-qualification evaluation was carried out in accordance with Pass-Fail criteria provided in Prequalification Document.

### 2.1 **Preliminary Examination**

Prior to detailed evaluation, following points were observed to determine the responsiveness of applications and the result is presented in Table-1;

- a. Completeness and verification of Documents.
- b. Eligibility as defined in Documents.
- c. Joint Venture (if applicable) requirements.

In Preliminary Examination, nationality of the applicants was checked in accordance with SPPRA Rule 2 (1) (y) and 15 (2) (b) (i).

SPPRA Rule 2 (1) (y) states "**National Company or Firm** which means any enterprise firm or company set up or incorporated in Pakistan"

### 2.2.6 Misleading/false Representation/Poor Performance

Besides above, the applications were also checked to the extent possible within the available time and resource as to any misleading/false representation provided by the Applicant beside the performance exhibited on previous Works.

### 2.2.7 Conditional Pre-qualification

As provided in Evaluation/Qualification Criteria "Failure to meet experience standards for candidates offered may not result in rejection at this pre-qualification stage; it could result in a Conditional Pre-qualification subject to corrections being made to the satisfaction of the Employer's requirements before bid submission."

Similarly, pursuant to Evaluation/Qualification Criteria (D) "Minor deviation in equipment requirement may not result in rejection at this pre-qualification stage, it could result in a Conditional Pre-qualification subject to corrections being made to the satisfaction of the Employer's requirements before bid submission."

However, no relaxation is considered in experience, financial soundness and other provisions provided in Prequalification Document and/or SPPRA Rules.

### 3.0 Qualification Evaluation

Prior to qualification evaluation, some of the general observations on applications are discussed below:

### **3.1 Observations on Applications**

On the basis of Pre-qualification criteria specified herein above, detailed evaluation was carried out. It was generally observed during the process of evaluation that the applicants generally, except few, failed to understand the requirements as laid down in the Pre-qualification Documents. They had not filled in the forms as required and many deficiencies were observed. For recording specific construction Experience, information provided was again deficient. Most of the Applicants did not fill the forms as desired. In case of financial information, the omissions and mistakes were manifold. The data about blacklisting was also not provided as required and the applicants tend to avoid the same.

### **3.2 Detailed Evaluation**

The factors stated hereinabove led to affect detailed evaluation of applicants with some flexibility.

Any Applicant failing in meeting specified criteria for eligibility, minimum construction period, average annual turnover, financial soundness, and number and size of similar works executed has been rejected for prequalification.

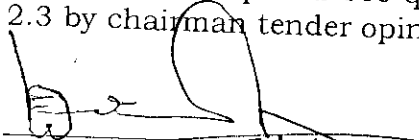

### **3.3 Pre-qualification Evaluation Decision**

On above lines, Pre-qualification evaluation was carried out. The Pre-qualification Evaluation Decisions are placed as Table 2.1 to 2.3. The Summary of evaluation and detailed evaluation are placed as Annexure-A to this report.

#### 4.0 Recommendations

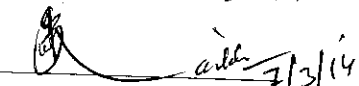

Pre-qualification Evaluation Committee unanimously recommends approval of Proposed Pre-qualification Decision placed at Table-2.1 to 2.3 by chairman tender opening committee, being competent authority.

**PRE-QUALIFICATION EVALUATION OF CONSTRUCTORS**

**1.0 Preamble**

The Government of Sindh, Coal & Energy Development Department is taking steps to provide infrastructure to generate power / energy from Coal, which is a natural gift available in mass quantity in the desert area of Tharparkar District in the Province of Sindh. For exploring the coal by open cast mining and power generation, heavy machinery and equipment is to be transported from Sea port Karachi to Thar Coal Field Area. As per requirement of the potential investors for providing save access to transport their heavy equipment and machinery to the Coal Field Area, the existing road network needs to be improved to cater for heavy loading requirements. The Government of Sindh, Coal Energy Development Department / Sindh Coal Authority has therefore decided to rehabilitate, Reconstruct, Widen and Improve / strengthen the existing road from Karachi (Ghagar railway Crossing) to Thar Coal Field Area via Thatta, Sujawal, Badin, Wango Mor, Mithi and islam Kot.

To design and Construct the project road on fast track, the project road is divided into two (2) phases, Phase I and Phase II. Each phase has further been divided into contract packages of appropriate sizes for construction. Section Phase II (134 Km) comprises of seven contract package out of which three packages i.e CP - I, CP - III & CP - IV have already been awarded and construction works are progressing at a good pace.

This pre-qualification pertains to the selection of the constructors for bidding of the remaining packages CP-II, CP-V, CP-VI & CP-VII.

Pre-qualification is a process to select firms or combination of firms that are suitably experienced in the type of proposed works and construction technology involved, that are financially and managerially sound, and that can mobilize resources in a timely manner to ensure successful execution of the contract. Pre-qualification is then followed by the closed competitive bidding in which only those Applicants meeting the specified criteria are invited to bid.

Pre-qualification Notice for Contract Package – 5 of Phase – I and Contract Packages II, V, VI & VII of Phase - II was published in the national newspapers on 11 January, 2014. Pre-qualification Documents were issued as per notified schedule. A copy of the pre-qualification notice is provided as Annexure – A.

This Prequalification Evaluation Report pertains to only Contract Packages II, V, VI & VII of Phase – II : Widening / Improvement Of Road From Wango Mor To Thar Coal Field Area Via Mithi, Islamkot (134 Km).

A total of 43 firms purchased the pre-qualification Documents for Phase II, whereas 36 firms submitted pre-qualification applications to the Procuring Agency, Sindh Coal Authority (SCA) by the latest submission date of 29 January, 2014.

The following 36 firms submitted the applications along with their qualification documents:

Similarly, pursuant to Evaluation / Qualification Criteria (D) "Minor deviation in equipment requirement may not result in rejection at this pre-qualification stage, it could result in a Conditional Pre-qualification subject to fulfillment of shortcomings to the satisfaction of the Employer's requirements before bid submission."

However, no relaxation is considered in experience, financial soundness and other provisions provided in Pre-qualification Document and / or SPPRA Rules.

## 3.0 Qualification Evaluation

Some of the general observations on applications are discussed below:

### 3.1 Observation on Applications

It was generally observed during the process of evaluation that the applicants in general, except few, did not provide CVs of the specified personnel as per required format provided in the pre-qualification document. Also details regarding the relevant experience for a specific position were not properly provided. Many eligible and responsive companies do not possess the requisite specific experience of having executed, in last five years, at least two projects of specified value of similar nature. Many Companies / Firms not having the pre-defined requisite specific experience of two similar projects also submitted the pre-qualification applications, despite knowing the qualification criteria requirements, resulting in increase of the total number of applications received and consequent rejection /disqualification.

### 3.2 Detailed Evaluation

Seventeen (17) applications out of total thirty six (36) applications were selected (unconditionally or conditionally) for detailed evaluation as they were found eligible and substantially responsive to the requirements of the pre-qualifications documents during the preliminary evaluation stage.

Companies not meeting the criteria in experience and financial soundness categories were disqualified. However the companies who meets / pass the criteria in experience and financial soundness categories but lack in personnel or/and equipment categories were not disqualified and considered as Conditionally Qualified.

The Pre-qualification Evaluation Summary is provided at Annexure C of this report and the detailed evaluation worksheets for the 17 eligible and responsive applicants are attached as Annexure D (separate volume).

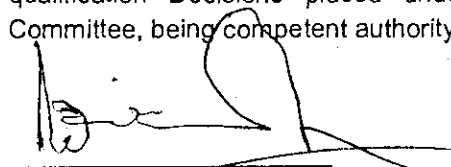

### 3.3 Pre-qualification Evaluation Decision

The following eight (8) companies / firms got fully or conditionally qualified as a result of detailed evaluation:

S.NO	NAME	RESULT
1	M/s Zarghoon Enterprises	Qualified
2	M/s Fazal and Brothers	Qualified
