<p><u>BINOCULAR MICROSCOPE</u></p> <ul style="list-style-type: none"> The microscopes are equipped with a cross table, a 4-way objective revolver with DIN achromatic objectives, a focussing Abbe condenser and the coaxial drive knobs are arranged as per common practice. The low temperature lighting provides for uniform illumination of the object and avoids the problem of heat affecting the slide when viewed for extended periods. LED lighting also has the benefit of being brighter, as well as being long lasting and eliminating the need for changing bulbs. Available accessories include planar and semi-planar achromatic objectives and a dark field condenser. Stand: Robust, all metal stand with arm permanently connect to the base. Focussing by means of separate knobs for coarse and fine adjustment located on either side of the stand and operated by rack and pinion drive with ball bearings, adjustable stopper for protecting the object slides and objective.
