The documents required from bidders in their Technical Proposal have a purpose of evaluation. BISE will not give marks to the "papers" but marks will be awarded to the "purpose" for which such documents are required from the bidders. The purpose of acquiring documents is to EVALUATE, MEASURE & ASSESS the worth and stature of bidding firms to safeguard the interest of BISE Sikkur and public money.

The evaluation method and criteria is prepared to avoid favoritism, interferences, prejudice and maintain impartiality by finding firms which are genuine, tax payers, financially sound, reliable and having good market repute.

To ensure transparency and fairness in the instant procurement, evaluation will be conducted on MARKS. In this way there will be healthy competition of "apple vs apple" not "apple vs banana" and **ANNEX-F** room for favoritism, interferences and preferentialism.

**Evaluation Results of  
Technical Proposals is prepared

BISE will not give marks to the "papers" but marks will be awarded to the "purpose" for which such documents are required from the bidders. The purpose of acquiring documents is to EVALUATE, MEASURE & ASSESS the worth and stature of bidding firms to safeguard the interest of BISE Sukkur and public money.

The evaluation method and criteria is prepared to avoid favoritism, interferences, prejudice and maintain impartiality by finding firms which are genuine, tax payers, financially sound, reliable and having good market repute.

To ensure transparency and fairness in the instant procurement, evaluation will be conducted **100 MARKS** In this way there will be healthy competition of "apple vs apple" not "apple vs banana" and **ANNEX-F** room for favoritism, interferences and preferentialism.

**Evaluation Results of  
Technical Proposals is prepared  
from the Profiles submitted  
by the Bidders.**

**Such profiles are available on Record for  
verifications of this report**
