

FBR yearly to get the audit done. Therefore, before considering this point, the department should have consulted or checked with the FBR rulings.

5-Relevant Field Experience 05 Years (Marks Allocated 50): The objection on this point has already mentioned above at point number 3 of our application. Secondly, despite willing to get the experience in point number 3, the department is again asking for the relevant field experience of 5 years with allocated marks of 50, why? This is really ridiculous on the part of the department.

Now the fact is that, if you sum up the allocated marks of these four point which is 105, you will realize that most of the reputed companies will get out of the tender and the game plan which has already been fixed to award the tender to any specific company will work.

So in the light of above mentioned facts with solid justifications and for the sack of transparency, you are kindly requested to please use your influence to remove these points from the terms and conditions of the Evaluation Criteria of the said tender.

With Best Regards,
