Committee on the Status of the World's Conservation Resources

The Committee on the Status of the World's Conservation Resources (CWC) was established in 1982 by the General Assembly of the United Nations. Its mandate is to monitor and assess the state of the world's conservation resources, including biological diversity, forests, and inland waters. The Committee reports to the World Commission on Environment and Development (WCED) and the United Nations Environment Programme (UNEP).

The CWC has held several sessions since its inception, focusing on various aspects of conservation. It has produced numerous reports and recommendations, which have been instrumental in shaping international conservation policy. The Committee's work is particularly significant in the context of the World Commission on Environment and Development's report, "Our Common Future," which emphasizes the need for sustainable development and the protection of the environment for future generations.

The CWC's reports provide a comprehensive overview of the state of the world's conservation resources and identify key areas of concern. These reports have been widely cited by governments, international organizations, and the public. The Committee's work is a testament to the international community's commitment to the protection and sustainable use of the world's natural resources.

No. B&A/MD/SIDA/GMF/NCAWB PERMISSION/ 269 Dated: 19 / 01 / 2016

To,

The Director,
Nara Canal, Area Water Board,
Mirpurkhas.

Subject: PERMISSION TO EXECUTE THE WORK ON EMERGENT BASIS UNDER THE SPPRA RULE 19(1)/2010.

The Director, Nara Canal, Area Water Board, Mirpurkhas vide letter No. DB/D-10/NCAWB/55 dated: 14-01-2016 has reported that after closure of canal the Executive Engineer visited the site and found consequent erosion by crumbling down several sips of the banks that is great menace for adjacent area and can cause of irreparable losses of not only the public but also Government's infrastructure unless the proper work is done Such as construction of diversion and other nature of work.

The Director Nara Canal, Area Water Board, Mipurkhas has further reported that owing to being of shortest period of closure the routine NIT for carry out the works cannot be invited within the stipulated time of closure so it is very essential to execute the works in order to protect the banks and bring the canal into sustainable conditions so that no any mishap / unpleasant events may take place.

In view of the facts narrated above, the necessary permission is hereby accorded as per list attached by you, under SPPRA Rule 19(1)/2010, so that the work may be carried out to make the canal ~~in~~ in efficient and resilient condition and also enhance its capability to carry the maximum amount of water to full fill the other Division's real demand in curb the shortage in this regard as requested by you. All codal formalities must be observed before start of the work under SPPRA Rules 2010.
