Section IV. Scope of Scheme: (Description of works and period of completion)

The Government of Sindh, Local Government Department is taking steps to provide enabling infrastructure to facilitate the people of Karachi. Traffic congestion is a major problem for extensively busy areas of this city. Moreover, the pavement condition is extremely bad, with several patches, potholes and many other pavement distresses. The severity is further aggravated with settlement of sewerage and other underground utilities trenches. These results in long waiting queues of traffic, making the whole areas heavily congested, that's why the existing road network needs to be improved.

With the completion of these projects, the whole city will be transformed in a smooth flow in terms of traffic, as there would be no traffic jams and it would provide the vehicular traffic with ease of mind, and it would go a long way in saving their time and energy. The Government of Sindh, Local Government Department has therefore decided to improve road sector of Karachi city.

The Project road will be constructed on fast track.

The Works will involve following major activities:

- Excavation
- Laying of Sub-base, Aggregate Base Course, Asphaltic Base Course, Asphaltic Wearing Course.
- RCC Pipe & Box Culverts.
- Construction of drainage/erosion control structures
- Construction of slope protection structures
- Ancillary works (Traffic Signs, Pavement Marking, Krebs etc)
- Electrification works.
- Etc.

Project Completion Period: 04-06 months.
