The financial scores (S_f) of the other Financial Proposals will be computed as indicated in the Data Sheet. The firm achieving the highest combined technical and financial score will be invited for negotiations.

20. Negotiations

20.1 Negotiations will be held at the date and address indicated in the Data Sheet. Minutes of negotiations, which will be signed by the PA and the Consultant, will become part of Contract Agreement.

22. Financial Negotiations

22.1 If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm's tax liability, and the manner in which it will be reflected in the

Contract; and will reflect the agreed technical modifications in the cost of the services. Consultants will provide the PA with the information on remuneration rates described in the Appendix attached to Section 4 (i.e. Financial Proposal – Standard Forms of this RFP).

22.2 Extent of contract negotiation – Procuring Agency may negotiate with the highest rank bidder regarding methodology, work plan, staffing and special conditions of the contract. The procuring agency shall not permit substitution of key staff, unless both parties agree that undue delay in selection process makes such substitution unavoidable. Similarly, negotiation shall not seek changes in the rate quoted by the bidder. In case of failure of negotiations the procuring agency may invite second ranked bidders as per the evaluation report.

23. Availability of Professional staff/experts

23.1 Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the PA expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the PA will require assurances that the Professional staff will be actually available. The PA will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate.

APPENDIX. FINANCIAL NEGOTIATIONS – BREAKDOWN OF REMUNERATION RATES

(Not to be used when cost is a fact or in the evaluation of Proposals)

1. Review of Remuneration Rates

1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for assignments away from headquarters. To assist the firm in preparing financial negotiations, a Sample Form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed break down sheets shall form part of the negotiated contract.

1.2 The Procuring Agency is charged with the custody of funds from Government of Sindh and is expected to exercise prudence in the expenditure of these funds. The Procuring Agency is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the firm's remuneration rates, certified by an independent auditor. The firm shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.

(i) Salary

This is the gross regular cash salary paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus.

(ii) Social Costs

Social costs are the costs to the firm of staff's non-monetary benefits. These items include, *inter alia*, social security including pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is the cost of leave taken during an assignment if no additional staff replacement has been provided. Additional leave taken at the end of an assignment in accordance with the firm's leave policy is acceptable as a social cost.

(iii) Cost of Leave

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary}^1 = \frac{\text{total days leavex100}}{[365-w-ph-v-s]}$$

¹ Where *w*=weekends, *ph*= public holidays, *v* = vacation, and *s*= sick leave.

It is important to note that leave can be considered a social cost only if the Procuring Agency is not charged for the leave taken.

(iv) Overheads

Overhead expenses are the firm's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (partner's time, non-billable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects, taxes on business activities and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Procuring Agency does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(v) Fee or Profit

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The firm shall note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the contract.

(vi) Away from Headquarters Allowance or Premium

Some Consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit.

(vii) Subsistence Allowances

Subsistence allowances are not included in the rates, but are paid separately and in local currency. No additional subsistence is payable for dependents the subsistence rate shall be the same for married and single team members.

Standard rates for the particular country may be used as reference to determine subsistence allowances.

2. Reimbursable expenses

- 2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursable expenses. These costs may include, but are not restricted to cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either unit rates or reimbursable on the presentation of invoices, in foreign or local currency.

TERMS OF REFERENCE FOR THE ASSIGNMENT

CONSULTANCY SERVICES FOR TECHNO-ECONOMIC FEASIBILITY STUDY, INCLUDING PREPARATION OF PRELIMINARY DESIGN, COST ESTIMATION, PC-I DOCUMENT, RFP DOCUMENT ETC. FOR ESTABLISHMENT OF NEW LANDFILL SITE FOR KARACHI AT DHABEJI

The scope of work of the consultancy assignment is as follows:

Background:

Karachi is the biggest city of Pakistan having population of around 20 Million. Solid Waste Management is the biggest problem in the city at the moment. Total waste generation of the city is about 12,000 tons/day. Out of 12,000 tons the 9,000 tons of waste is generated within the administrative jurisdiction of Karachi Metropolitan Corporation (KMC) / District Municipal Corporation (DMC) and District Council Karachi (DCK). The remaining 3,000 tons of waste is generated in areas of other civic administrative bodies e.g. Cantonment boards, SITE, KPT, Pakistan Railways etc.

There are two landfill sites available for the disposal of the solid waste being produced in the city. These two landfills located at Gond Pass and at Jam Chakro (Near Surjani Town) are not proper sanitary landfills but open and burning dumps. These landfills have contributed to water and air pollution and serve as a breeding ground for insects / rodents and many vectors of disease transmission. In addition, these dumps are unsightly and very often have effect of depressing the value of nearby land and properties. Moreover both landfill sites are located on one side i.e. Northwest of the city. No landfill site is available to cater the need of eastern side of the Karachi.

An acceptable alternate to the poor practices of waste disposal has been the sanitary landfill. This alternate requires the planning and applying of engineering and construction techniques. In order to achieve above said objectives and improve the current situation of the garbage disposal, Sindh Solid Waste Management Board (SSWMB) plans to establish a new landfill site on eastern side of city for which 3000 (Three thousand) acres of land have been acquired for new landfill site at Dhabeji.

As a part of 'Integrated Solid Waste Management Strategy' the SSWMB intends to hire the services of reputed and experienced National Consulting Firms for conducting Techno-economic Feasibility Study to suggest most appropriate, technologically sustainable, economically feasible and environmentally safe option of Sanitary Landfill Site for Karachi. The consultant shall also be responsible for preparation of Preliminary

Design, Cost Estimation, preparation of PC-I Document, RFP document, etc., for the proposed Sanitary Landfill Site near Dhabeji.

With the establishment of sanitary landfill site, the water, air pollution and leachate will be controlled effectively.
