3. **Introduction of the Program:**

There is a strong evidence in our country of poor educational outcomes and youth participation, high youth unemployment rate, mismatch of job supply and demand, lack of soft skills necessary for increasing employability, as well as on high engagement of youth in informal and undeclared work. The evidence also clearly indicate that young people are not adequately prepared for the world of work, while their entrance into the labour market is hindered by many obstacles putting them in a disadvantaged position for a decent career start and management.

Sustainable economic growth requires entrepreneurship. Entrepreneurs create new jobs, contribute to economic expansion, and become stakeholders in supporting a healthy business environment. As communities across the world struggle to meet employment demands, the importance of fostering a next generation of entrepreneurs – both job creators and entrepreneurial employees – is particularly salient.

4. **Major Objectives:**

1. The project will increase the number of businesses owned by young person that are started and successfully sustained.
2. To provide a network of affordable support for these businesses in the areas of:
 - Basic business management
 - Financial and accounting management
 - Production management
 - Quality assurance
 - Customer service
 - Business communications
3. To provide access to traditional and non-traditional financing for start-up business ventures and for business expansions.
4. To increase the number of young persons who view self-employment as both a feasible and sustainable option for future career development.
