**Public Opening and Evaluation of Financial Proposals:  
(LCS , QCBS, and Fixed Budget Selection Methods Only)**

18.2 After the technical evaluation is completed, the PA shall notify in writing Consultants that have secured the minimum qualifying marks, the date, time and location, allowing a reasonable time, for opening the Financial Proposals. Consultants' attendance at the opening of Financial Proposals is optional.

Financial proposals of those consultants who failed to secure minimum qualifying marks shall be returned unopened.

**19. Evaluation of Financial Proposals**

19.1 Financial Proposals shall be opened publicly in the presence of the Consultants' representatives who choose to attend. The name of the Consultants and the technical scores of the Consultants shall be read aloud. The Financial Proposal of the Consultants who met the minimum qualifying mark will then be inspected to confirm that they have remained sealed and unopened. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copy of the record shall be sent to all Consultants.

19.2 The Evaluation Committee will correct any computational errors. When correcting computational errors, in case of discrepancy between a partial amount and the total amount, or between word and figures the formers will prevail. 19.3 In case of **Least Cost Selection LCS Method**, the bid found to be the lowest evaluated bid shall be accepted.

19.4 In case of **Quality and Cost Based Selection QCBS Method** the lowest evaluated Financial Proposal (Fm) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet:  $S = St \times T\% + Sf \times P\%$ . The firm achieving the highest combined technical and financial score will be invited for negotiations.

19.5 In the case of Fixed-Budget and Quality Based Selection, the Procuring Agency will select the firm that submitted the highest ranked Technical Proposal.

**20. Negotiations**

20.1 Negotiations will be held at the date and address indicated in the Data Sheet. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure in satisfying such requirements may result in the PA proceeding to negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract.

**21. Technical negotiations**

21.1 Technical Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, organization and staffing, and any suggestions made by the Consultant to improve the Terms of Reference. The PA and the Consultants will finalize the Terms of Reference, staffing schedule, work schedule, logistics, and reporting. These documents will then be incorporated in the Contract as "Description of Services". Minutes of negotiations, which will be signed by the PA and the Consultant, will become part of Contract Agreement.

**22. Financial negotiations**

22.1 If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm's tax liability, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services. Consultants will provide the PA with the information on remuneration rates described in the Appendix attached to Section 4 (i.e. Financial Proposal - Standard Forms of this RFP).

**23. Availability of Professional staff/experts**

23.1 Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the PA expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the PA will require assurances that the Professional staff will be actually available. The PA will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate.

## **24. Award of Contract**

24.1 After completing negotiations, the Procuring Agency shall award the Contract to the selected Consultant and within seven of the award of contract, Procuring Agency shall publish on the website of the Authority and on its own website, if such a website exists, the result of the bidding process, identifying the bid through procuring identifying number, if any and the following information, evaluation report, form of contract and letter of award, bill of quantity or schedule of requirement, as the case may be.

### DESCRIPTION OF SERVICES

#### CONSULTANCY SERVICES FOR REVIEW OF PC-I, PREPARATION OF DETAIL ESTIMATE AND DESIGN, PREPARATION OF TENDER DOCUMENTS & CONSTRUCTION SUPERVISION OF CEMENT CONCRETE LINING OF ROHRI MAIN CANAL FROM JAMAL SHAH X-REGULATOR RD-577 TO CHANNESAR X-REGULATOR DOWNSTREAM RD-619 AND FROM RD-680 TO RD-706 DOWNSTREAM KUMBLIMA X-REGULATOR IN SINDH PROVINCE

#### TERMS OF REFERENCE (TOR)

### 1. INTRODUCTION

Due to global climate changes and warming effects, the sources of water are dwindling all over the world with every passing year. The water resources of Pakistan are affected by a number of reasons, the major being the followings:

- Construction of dams by India, on upstream side
- Non – construction of large dams after Tarbela Dam
- Seepage losses in irrigation system
- Inefficiency of distribution system and inequity of irrigation water
- Lack of private sector participation
- Increased poverty in backward irrigated areas

In Sindh Province, need for agricultural production is anticipated to increase due to population growth and urbanization. It is estimated that by 2025 the irrigation water requirements for agriculture would increase by about 50% if the current irrigation practices continue.

In Sindh Province, all canals are earthen except Akram Wah canal offtaking from Kotri Barrage. A huge amount of irrigation water is lost from these canals in the form of seepage from banks and bed. Lining is considered to be more effective in reducing the conveyance/ seepage losses in the alluvial canals. In order to minimize seepage losses, Govt. of Sindh has decided to initiate a project through Irrigation Department for Lining of Canal in Sindh Province.

### 2. PROJECT OBJECTIVES

The overarching objective is to reduce seepage losses and improve conveyance efficiency, reliability and durability of Rohri Canal by Cement Concrete Lining of Rohri
