Leadership and Ideas for Tomorrow

Request for Proposals from
Data Centre Consultants / Project Managers for

DESIGN SCRUTINY, DETAILED SUPERVISION AND PROJECT MANAGEMENT OF DATA CENTRES

at Main and City Campuses at IBA

The Institute of Business Administration intends to set up data centres both at its Main Campus, University of Karachi and at the City Campus.

IBA desires to engage a Consulting firm of repute having proven experience of providing total engineering services for the envisaged Data Centres conforming to ANSI/TIA-942 - Tier 3 specifications. The Consulting firm must have proven evidence of being involved in an ANSI/TIA-942 Certified site equivalent to Tier-3 or Tier-4 which has been officially certified by an approved authority. Only those Consultant should apply who are capable of designing/scrutinizing design, detail supervision, project management and have expertise in following major elements.

- Space and installation planning
- Power distribution
- Data cabling
- Mechanical/Plumbing services (Precision Air-conditioning, etc)
- Fire protection/suppression
- Standby power system
- Premises Security and surveillance systems
- Building services (Lighting, general power, fire alarm, etc.

It is clarified that the applicants shall not have any stake (directly, through group companies or through joint venture) in import, distribution, trading and/or contracting of IT and Data Centre related equipment and systems.

Applicants are requested to submit duly filled IBA's prescribed RFP comprising technical and financial bids. It can be downloaded from IBA's website (www.iba.edu.pk) or can be obtained personally from the office of the Projects Department w.e.f. **March 8, 2011**. Criteria for Pre-Qualification shall be as per SPPRA rules, as prescribed in RFP. All RFP should be duly completed and submitted on or before **March 29, 2011**.

IBA reserves its right to accept or reject any or all applications or annul the whole proceedings without assigning any reasons thereof.
